Men and Women For a Representative Democracy In America

July 15, 2020

Director Christopher Wray
Federal Bureau of Investigation
935 Pennsylvania Ave., NW
Washington, D.C. 205350001

Dear Director Wray:

As you stated in your speech of June 4, the mission of the Federal Bureau of Investigation is to protect the American people and uphold the Constitution of the United States. Your motto, "Fidelity, Bravery, Integrity," holds the FBI staff to a high moral standard unattached to any political agenda – other than defending the United States and its Constitution.

Our organization adheres to Biblical principles and believes Colossians 3:25, "But he that doeth wrong shall receive for the wrong which he hath done: and there is no respect of persons." Anyone who violates the law should receive for the wrong he has done no matter who s/he is and no matter who was hurt.

Our organization, Men and Women for a Representative Democracy in America, is thankful that you are aware that the death of George Floyd is being exploited to advance extremist agendas, but there is concern that members of the FBI have publicly knelt as a pledge of their allegiance to Black Lives Matter. There are too many questionable elements attaching themselves to BLM – in particular, the New Black Panthers and possibly Antifa. Since it is clear that a number of peaceful protests have been high jacked by violent groups bent on destruction, any member of the FBI who verbally or by physical demonstration aligns with the BLM puts the integrity of the FBI in question. The agency becomes part of a political agenda rather than an impartial investigative agency that protects all Americans.

We request that you make every member of your agency aware of the negative impact on the credibility of the FBI when there is perceived allegiance to any cause - other than protecting the United States and its Constitution. In addition, we request that a process be put in place to verify that each agent is loyal to the United States and its Constitution and behaves accordingly. No government, no agency, no organization is immune to corruption and deceit.

Our nation is in crisis. Americans need to know that the FBI is doing its job without bias.

Sincerely,

Member
