Unsure which to order? Follow this guidance:

Label Verification Letter

Is a letter that provides the following information: Label Number, Serial Number, Date of Manufacture, Name of Manufacturer and Plant Location and Location of First Destination. It does not contain the wind zone, roof load or thermal information.

Data Plate/Performance Verification Certificate

Provides Serial Number, Date of Manufacture, Name of Manufacturer and Plant Location and Wind Zone, Roof Load Zone and Thermal Zone for which the zone is designed. The certificate is based on the zone requirements in effect at the time the home was manufactured for the location of the home's final destination. It does not contain the Label Numbers.

If your appraisal is missing information or the following questions are marked No, you will need to request the coordinating Certificate or Label from IBTS.
