

Testimonials

The Connect Care Medical Alert System has worked perfectly on the two occasions when my mother fell, unnoticed, and was unable to get up.

We are very happy with the equipment and professional service we received. We appreciate the staff's warm and supportive help with regards to any changes or updates to my mother's health and for helping her stay safe.

Lisa P

I have recently become a client of the Connect Care Medical Alert Service. I was very impressed with your professional staff. They were very efficient and thorough in explaining all the details to me. Connect Care was recommended to me by a friend who has been using the service for several years, and I am so happy she did.

Michael O

The Connect Care system has been excellent. It has given my mother a strong sense of security while rehabilitating. We are happy she has 24 hour access to an immediate response service.
