The engineering design process used to create our CHILL-MAX™ cooling cartridge was based on 3 key principles:

PURITY

deliver product the way it was intended to taste

PERFORMANCE

provide superior thermal conductivity with less energy

HASSLE-FREE

lightweight with flexible lines for a quick and easy install

CBS STOCKS CLEANING CANS AND CHEMICALS TO CLEAN PICNIC PUMPS (PG.83-85)

To clean your Picnic Pump, fill the cleaning bottle with water and cleaning chemical and connect the Picnic Pump to the bottle cap on top of the cleaning can. Pump the solution through the pump and out of the faucet. Rinse the cleaning bottle, add fresh water and pump the water through the pump and out of the faucet to complete the second stage of the cleaning process. Contact your CBS representative for more details.
