LOUVOLITE

MOTORIZED

window blind collection

roller | roman | pleated & cellular | vision®

Louvolite is proud to offer an innovative new range of battery operated and mains powered window blinds.

Louvolite One Touch® makes luxury affordable with motorisation that is accessible to all.

Make an impression with stunning window blinds that can be operated at the touch of a button. Simple, convenient and easy to use, the Louvolite One Touch® blinds are operated either by a sleek and unique wand that hangs neatly next to the blind or by a remote control that allows you to operate a number of blinds at a time, depending on your requirements.

The rechargeable battery powered solutions remove the need for mains wiring, making it easy to install and without disruption to your home decoration.

There is no better way to make a contemporary style statement in your home.

Ask your local blind supplier about the Louvolite One Touch® motorised range.

ONE TOUCH technology

Louvolite One Touch® motorised blinds can be operated in two ways. Wand operation will operate a single blind and is ideal for children's rooms or bathrooms.

The remote control allows you to operate a number of blinds at the same time, to suit your requirements. All Louvolite blinds are of course child safe and motorisation is another example of this, giving you complete piece of mind in a chic and sophisticated way.
