engineered wood flooring

# product quality & environment

**T**he world faces many challenges and managing our forests is very important. Illegal logging is the harvesting of timber in contravention of the laws and regulations of the country of harvest. Illegal logging is a global problem with significant negative economic, environmental and social impact.

In October 2010, the EU adopted a new timber regulation to combat trade in illegally harvested timber. This makes it illegal to place illegally harvested timber products on the European marketplace. All operators supplying timber or timber products must provide a due diligence system of operation which includes storing information regarding the supplier, buyer and product for a minimum of five years. All Whiteriver Group timber products are completely compliant with these new regulations.

In addition to this, we are committed to sourcing all our wood products from well managed and sustainable sources. Our company has achieved both FSC® and PEFC Chain of Custody certification. The Forest Stewardship Council® (FSC) aims to promote environmentally appropriate, socially beneficial and economically viable management of the world's forests. Read more about FSC – [www.fsc.org](http://www.fsc.org). The Programme for the Endorsement of Forest Certification (PEFC) is an international non-profit, non-governmental organisation dedicated to promoting Sustainable Forest Management (SFM) through independent third-party certification. Read more about PEFC – [www.pefc.org](http://www.pefc.org). Our aim for the future is to maintain the highest quality standards and to increase the number of products that we sell that are certified with proven chain of custody.

The Whiteriver logo consists of the word "Whiteriver" in a white, sans-serif font, positioned on a solid red rectangular background.

wood for living

# welcome

Over the last two decades, Whiteriver floors have grown to become one of the most respected and recognised names in engineered flooring. Selecting only the finest hardwoods and combining them with a precision multi-layer construction, Whiteriver are a high quality choice for your interior floors. The natural look of a solid wood floor with the extra stability provided by the engineered construction, you truly experience the best of both worlds with a Whiteriver Engineered Wood Floor. Available in a large range of styles and species, there is something to suit every home and design taste.

# monolam

BY WHITERIVER

Available in a variety of widths: 120mm, 127mm, 150mm and 180/189mm, the Whiteriver Monolam Collection of engineered flooring offers a fantastic selection of versatile styles to suit the most contemporary or traditional home. The overall board thickness of 18mm features a 4mm top layer of finely selected real hardwood, finished to the highest manufacturing standards with either a multi-coat lacquer or UV oil finish. 14mm/15mm boards have a 3mm top layer. Whether you enjoy the classic timelessness of European Oak, the richness of American Walnut or the warmth of American Cherry, there is something in the Monolam Collection to suit every taste.

150 x 18mm American Walnut

127 x 18mm Canadian Maple

127 x 18mm American Ash

## American Ash

With an appealing bright coloration and naturally expressive grain, American Ash is enduring choice for wood flooring. Used for generations, it truly has an ageless beauty and original appearance

# forest

BY WHITERIVER

The Forest Collection boasts stunning 180/190mm width boards with 1800/1900mm lengths, giving a fashionable wide plank, long plank look to your home. Your room will radiate with the warmth of the vintage yet natural wood appearance and selection of special finishes available in the Forest Collection.

comfort...

180 x 14mm Erne Oak

180 x 14mm Beleek Oak

## Glengarra Oak

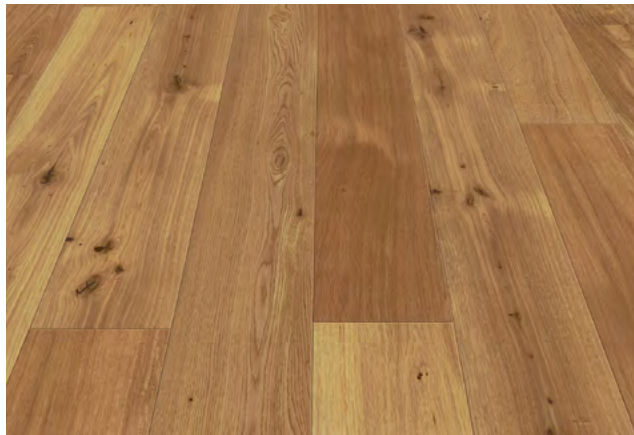

Oak is, with good reason, one of the great classics of the wood flooring sector. It is very resistant and expresses natural strength. With its distinctive appearance, it compliments tastefully various interiors, from the most conservative to the most modern styles.

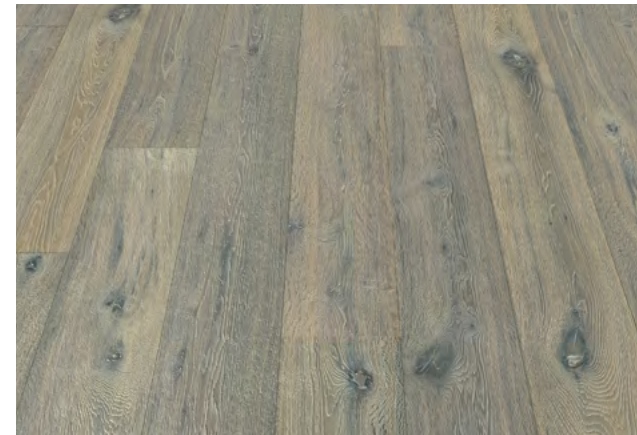

# whiteriver - forest 14mm plank

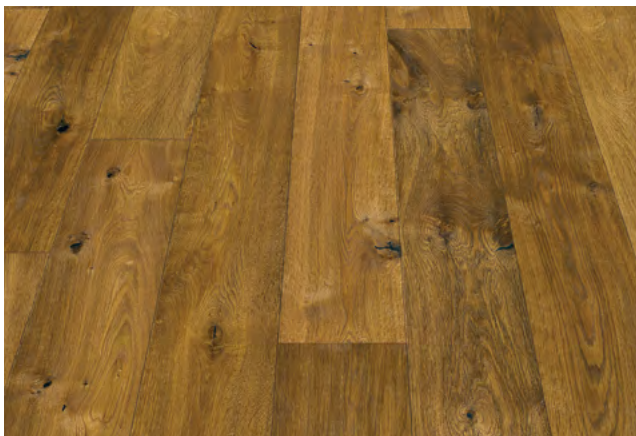

**\*190 x 14 x 1900mm Ardmore Oak Smoked Planed**  
*Finish: White UV Oiled*

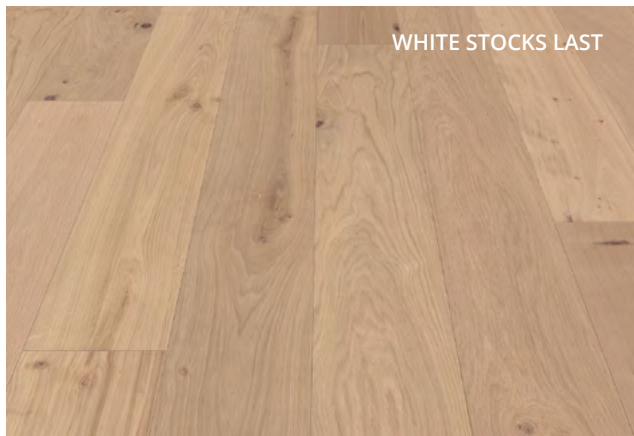

**180 x 14 x 1800mm Plank Avoca Oak**  
*Finish: Varnished*

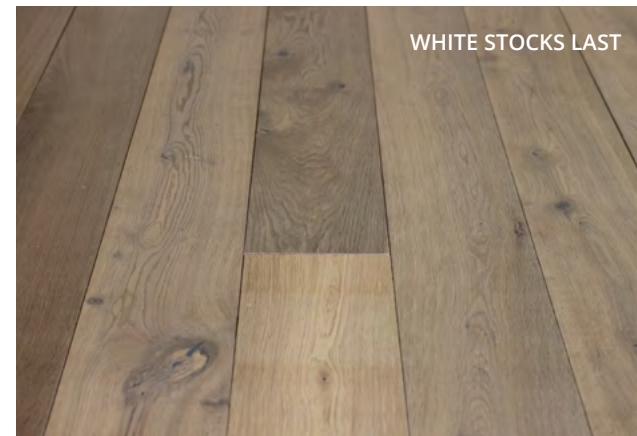

**190 x 14 x 1900mm Dalkey Oak Hand-brushed**  
*Finish: Matt Varnished*

**\*\*180 x 14 x 1800mm Beleek Oak Smoked**  
*Finish: Handscraped, Brushed, Polished & Natural Oiled*

# Use HARO Flooring on your stairs

Wooden stairs are in line with the latest interior design trends. Puristic furniture and large glass areas correspond with floors, walls and stairs that radiate warmth and provide texture. Therefore, engineered flooring on stairs is attracting more and more fans. Whiteriver and HARO offer the perfect solution for contemporary interior stair design with its current and cutting-edge engineered flooring.

We believe it is important that stairs, corners and edges also look good in rooms with HARO parquet. We therefore offer the matching stair nosings for your HARO parquet. We have added further elements to the range that enhance the overall impact in the room even further; ready-made solutions for trimming the sides of stairs with HARO stair nosings. For the perfect overall interior look.

Please note that the HARO side stair trims are only suitable for straight staircases.

**For more information please visit:**

### **4. Side Trim Panel 75mm:**

Quote Flooring ID + 533 189

Supplied in 2.18 lin m lengths. Mitre cut on 3 sides. Requires final cutting to size on site.

# Use HARO Flooring on your walls

## Wood on the wall

Traditionally wall panelling could be found in many homes, hotels and castles. Today, wall panelling is used in more, modern - design oriented apartments, lofts and houses. High quality planks that are made to match the floor surface are used to decorate walls instead of traditional wooden panelling.

The trend is nothing new. In the past, walls were already panelled with wood. Wooden wall panelling can be found in many homes, in cosy hotels and as a warm surface on cold castle walls. But now it's increasingly found in modern, design-oriented houses and apartments, too. Nowadays, boards of high-quality matching the floor surfaces are used instead of simple wooden panelling.

## Quickly and easily attached to the wall

Mounting modern Haro engineered flooring on the wall is incredibly easy. The reason for this is the specially developed wall mounting system that is perfectly tailored for the Haro engineered plank range. This system consists of fixing rails, special start and end clips, as well as mounting clips. All quality floors in the Haro Collections can easily and quickly be mounted to the wall.

For more information please visit:

[www.haro.com/en/interior/haro-wall-paneling-click-system](http://www.haro.com/en/interior/haro-wall-paneling-click-system)

## FOR WALL INSTALLATION

# XL

Renaissance XL represents customisation, quality, exclusiveness, nature and sustainability, which are reflected in all of our designs. During the production process the floor elements are manufactured by hand. This way each plank has its own unique and exclusive appearance. XL floors are characterised by their unique surface. The exclusive finishing stands out because of the particularly varying heights, better known as Original Surface. XL can also be provided in a sanded variant, the Sanded Surface. These extraordinary floors are produced in different lengths up to as much as 4 metres long and almost 50 cm wide.

# Recommended Insulation Underlays

We strongly recommend a quality insulation underlay for all hard subfloors. You consequently increase the resilience of the floor, absorb indoor and footfall sound and level minor irregularities of the subfloor. The cushioned resilience does not only have a relieving effect on ears, joints and spine, but footfall and room sound are minimised as well – which will not only please you but also your neighbours.

## 3mm Silent Plus

Heavy duty rubber underlay with integrated fleece and ALU-foil back

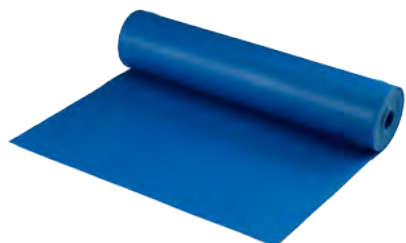

Roll Size: 3mm x 1m x 10m (10m<sup>2</sup>)  
Footfall sound improvement: 23 db  
Thermal Resistance: 0.12k/w m<sup>2</sup>  
Tog Rating: 1.2

## 5mm Therm

Compression-proof 5mm Therm is an insulating board made from natural wood fibre which effectively reduces transmitted impact sound and reflective sound.

Pack Size: 5mm x 0.8m x 0.675m (10.8m<sup>2</sup>)  
Footfall sound improvement: 21 db  
Thermal Resistance: 0.07k/w m<sup>2</sup>  
Tog Rating: 0.7  
Density: 135kg/m<sup>3</sup>

## 3mm Acoustic Blue

Cross-linked polyolefin foam underlay

Roll Size: 3mm x 1m x 10m (10m<sup>2</sup>)  
Footfall sound improvement: 22 db  
Thermal Resistance: 0.086k/w m<sup>2</sup>  
Tog Rating: 0.86

## 2mm Acoustic Orange

Cross-linked polyolefin foam underlay  
Suitable for Underfloor heating

Roll Size: 2mm x 1m x 10m (10m<sup>2</sup>)  
Footfall sound improvement: 20 db  
Thermal Resistance: 0.050k/w m<sup>2</sup>  
Tog Rating: 0.5

## 4mm Gold Plus

Polyethylene foam with integrated gold foil back

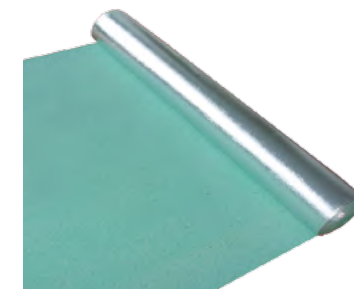

Roll Size: 4mm x 1m x 15m (15m<sup>2</sup>)  
Footfall sound improvement: 20 db  
Thermal Resistance: 0.090k/w m<sup>2</sup>  
Tog Rating: 0.9

## 2mm Cork

Natural granulated cork  
Suitable for Underfloor heating

Roll Size: 2mm x 1m x 20m (20m<sup>2</sup>)  
Footfall sound improvement: 17 db  
Thermal Resistance: 0.041k/w m<sup>2</sup>  
Tog Rating: 0.41

## 3mm Soundmaster

Heavy Duty Underlay with integrated ALU-foil back

Roll Size: 3mm x 1m x 10m (10m<sup>2</sup>)  
Footfall sound improvement: 20 db  
Thermal Resistance: 0.067k/w m<sup>2</sup>  
Tog Rating: 0.67

# Quality and Reassurance

Whiteriver have a long tradition of quality products. We offer you brand-name quality and we invest in developing our products to meet the most stringent quality requirements. This lead in knowledge and experience makes all the difference in our products. So much effort comes with a price, but this price is value for money. It is not by chance that we hold the leading position in the market. If you require any information regarding our products, please feel free to contact our office or to download it from our website [www.wrg.ie](http://www.wrg.ie). Our website will have relevant data updated by 1st July.

- Technical datasheets
- CE certificates
- Declaration of Performance
- Underfloor heating
- Installation instructions
- Warranties
- Floor aftercare & maintenance (Residential and Commercial)

We wish you many years of enjoyment with our flooring products.
