

The results are in!

What a great day at St Peter and St Paul's Primary Academy Summer Fete!

Up-Grade Training work closely with St P&Ps through our martial arts after-school club, but today we were able to show the other side of ourselves by demonstrating our Fusion Tutoring (see our Fusion Tutoring page on the website for more details) techniques under the summer sun and blue skies!

Dozens of local children joined the fun during the demonstration and everyone had a great time practicing moves and playing educational games!

We look forward to jumping back in next year and working with a whole new range of students between now and then!
