

Introducing the Tersano Lotus Pro

SAO™ is a simpler, safer, cheaper and more sustainable way to clean, deodorize and sanitize.

The Tersano Lotus PRO Advantages:

- ✓ **Sanitiser** – Acts as hand and surface sanitiser
- ✓ **Cleaning** – Better than chemicals, able to clean any type of surface
- ✓ **No more Chemicals** – All aspects of cleaning can be done with the Lotus pro, meaning no more COSHH
- ✓ **Cost Effective** – works out to as little as 8p per litre!
- ✓ **Safer** - for staff, pupil's and Guests, no toxins, carcinogens or chemical residue, Non-irritant , non-caustic, no allergy concerns
- ✓ **Kills Viruses** - bacteria including E.coli, Salmonella, MRSA and more - 99.999% of Escherichia Coli within 60 seconds contact time
- ✓ **Cleans and sanitizes** - Accredited to BS EN13697 standards, means all those touch points on your sites not only gets cleaned but kills the bugs too!

How it Works

1. Cold tap water enters the cartridge. Treated within seconds, the water is now a sanitiser and cleaning agent
2. As the treated water moves through the “smart” dispenser, sensors monitor the systems to ensure that the water has been infused with the right amount of O3.
3. The dispenser is ready to fill mop buckets, spray bottles, auto-scrubbers, and more with SAO for cleaning, sanitizing, and deodorizing.

Lotus pro Machine

Lotus Pro - £995 +vat

Cartridge - £325.00 +vat

If required

Fitting - £95.00 +vat

Water supply - From £49.95 +vat

Sanitise and clean your school, gym, office or any other environment any time/ any day with your very own, constant supply of this powerful sanitiser and cleaner

Lotus i Clean Mini

Dispenser - £249.99 +vat

With the press of a button, the I Clean mini™'s diamond-coated electrodes instantly create an oxidising solution that is safe for people - yet tough on dirt, germs, and odours. Ideal for home, office or commercial environments, the I Clean mini is approved to clean and sanitise food preparation surfaces.

Using the sanitised water with a spray bottle, you can sanitise every inch of your site whenever you like.

With no added chemicals you don't have to worry about damaging surfaces, it can be used on carpets, hard floors, walls and anything else you can think of!
