To the Honourable the President and Members of the Legislative Council in this present Parliament assembled -

The humble Petition of the undersigned residents of South Australia respectfully sheweth:That

In July 2011 the state Labor party removed our protections of both knowing the vehicle we were about to drive was indeed registered and the protection that another could not cancel our registration, coincidently at the very same time SAPOL vehicles & Cameras were fitted with number plate recognition devises, with thousands now being fined for driving uninsured and unregistered.

Reports also show that renewal forms are not always being received.

Your petitioners therefore pray that your Honourable House will

- a. introduce legislative change to restore the issue of registration labels to all motor vehicles in SA;
- b. to allow a defence to all those victims who received fines and loss of demerit points through "Not knowing the vehicle they were driving was unregistered" as a direct result of their failed legislative change that abolished our protections by removal of registration labels.

And your petitioners, as in duty bound, will ever pray.
