

DermaEssence are looking to recruit six men to join our Hair Restoration (trichology) programme.

Requirements:

- Thinning or receding hair (not bald).
- Commitment to attend 6 weekly mesotherapy sessions.
- Consent to weekly progress photos that are shared on social media (names and faces withheld).
- Attend final focus group to discuss the experience in order to inform our trichology programme.

Procedures:

- The scalp will be treated using F-Hair Men. F-HAIR MEN is an exclusive product that effectively treats alopecia, and is formulated with a blend of peptides, growth factors, organic silicon, pantothenol and hyaluronic acid. It restores an effective micro-circulation of the scalp and revitalises hair follicles. It is an effective formula designed to fight thinning hairs, stimulate regrowth, stop men androgenic alopecia and hair loss.
- The product will be administered by a nurse using dermaroller mesotherapy enhanced by LED light therapy and electroporation (needleless can also be offered).

Benefits:

- Proven hair growth in clinical trials.
- Non surgical, non scarring procedure.
- Pharmaceutical grade products.
- No down time.

Cost:

Normally £600.00 discounted to £399.00 for the programme.
