

Maywood Cooperative Nursery School

TV Policy

The Maywood Cooperative Nursery School provides a skill based program to children ages 2 ½ to 5 years old. The school uses a curriculum based program from Frog Street Press. We also base our lessons on thematic units.

The school limits the amount of television that the children use to be based on our curriculum. Our Frog Street Press DVD is used weekly to teach the children about our ABC characters. Each letter person's video is about 3 minutes long.

The children are never exposed to television longer than 30 minutes per day, and the video must be incorporated into the thematic unit and be of educational value.
