WEEKLY

Vacuum using the bare floor setting

MONTHLY

Clean with recommended wood flooring cleaner

EVERY 3 - 5 YEARS

Maintenance coat

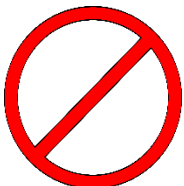

EVERY 15-25 YEARS

Sand and refinish (Can be done more frequently as needed)

CLEANING YOUR HARDWOOD FLOORS

Cleaning wood floors is easy! Regular maintenance includes sweeping with a soft bristle broom or dusting with a dry microfiber mop. Clean the floors periodically with a professional wood floor cleaning product, such as [Bona Hardwood Floor Cleaner](#). This can be found with the floor cleaning products in your local supermarket or home improvement store.

DO NOT USE any cleaning product with a polish, acrylic, oil, wax base, etc... as these products will build up residue on your floors and can damage them. Do not use steam mops as they will dull your floors. If you are not sure if a product is safe to use, please feel free to give us a call or email us and we can advise you if the product is safe or not.
