

The Urban Range Sliding Window

CAPRAL
ALUMINIUM

urban

Easy to operate and timeless in design, Sliding Windows are an economical choice. Wide panels with no external projections means they are ideal for high traffic areas whilst providing good ventilation. Urban Sliding Windows are available in various sized frames and can seamlessly integrate with doors, awning and fixed windows. Insect screening is included as a standard requirement.

The Urban Sliding Window

The Urban Sliding Window suite has been designed to provide a clean and streamlined appearance with its squared mullions and glazing beads.

With the use of adaptors, the Urban Sliding Window can be double glazed to offer an enhanced level of thermal comfort and performance.

Being part of the Capral Urban Residential Range also allows integration with a complementary selection of awning, casement and double hung windows for a whole-of-house solution.

Features and Benefits:

- Thermally efficient frame design
- Single and double glazing options
- Concealed mullion fixings
- Latched mullion locking options
- Compatible awning and double hung suites available
- Integrated insect and security screening options
