

Northrup & Associates

SPEECH & LANGUAGE PATHOLOGY

Our Experience. Your Child's Success.

Northrup & Associates is a small practice where each client is special to us. We are **committed to providing** a non-judgmental, nurturing atmosphere where clients and their families **develop communication skills**.

Our team of **highly qualified speech/language pathologists** has experience with a wide variety of communication disorders, including autism, autism spectrum disorder, Down syndrome, cognitive delay, cerebral palsy, childhood apraxia, hearing impairment, auditory/language processing disorders and multi-handicapped students. We work with preschoolers and school-aged clients, ranging in age from **birth to young adult**.

Our **social language** groups (SLY and ACES) have been meeting for 10 years. We have developed a social language curriculum and designed a unique program that is based on pragmatic language development. The program takes clients outside of the office and into the real world to **learn, refine and generalize skills**.

At Northrup & Associates, our speech/language pathologists take part in extensive continuing education, **integrating new and innovative techniques with time-tested methods**. We work well as a team, seamlessly sharing expertise and skills, to provide the best therapy to our clients.

Our goal is to serve with intelligence, compassion and creativity. We are dedicated to helping you and your child as you encounter the many challenges that communication difficulties present. Through utilization of a problem-solving approach we will **guide you** toward the best possible outcomes.
