

Quartz Front Edge Profiles

SEACLIFF

The cleanest and simplest of edges, it is used most often in contemporary kitchens.

SUMMIT

With a hint of a round edge, this simple design is a child friendly selection for any room that needs a linear form to complete a design.

MORAINE

A natural, rustic appearance, this hand finished "Broken" edge provides a raw look.

BOULDER

This stylish edge provides elegance to any traditional space. Both stylish and sophisticated.

ALPINE

This clean, simple edge is an alternative to "Seacliff". Providing a more traffic friendly option that still provides that "90 degree" look.

RIMROCK

This two piece edge brings a sleek modern look to a heavy/thick looking piece of stone.

custom sizes

CRESCENT

With a shallow radius edge this style provides flare to any clean and simple kitchen design.

PIEDMONT

This classic edge has the rounded top of a bullnose, but a sharper edge on the bottom and works with any style.

TREELINE

This classic angled shaped edge, also known as a bevel is popular in transitional kitchens.

VOLCANIC

Its rounded edges are easy to clean and safe making this a great choice in houses with small kids.

BASIN

Classic and traditional, this edge adds an elegant touch to any design
