

**PLENUS CONDIGO GROUP, LLC**  
**YOUR COMPLETE SOLUTION**

**PLENUS CONDIGO GROUP, LLC**

**SUPERIOR | SCALABLE | SOLUTIONS**

PLENUS CONDICO GROUP, LLC

## scalability

Every organization has its own combination of challenges. Whether your company desires:

- Consulting services for performance improvement
- Assistance with international trade
- Project management for projects of all sizes
- Business consulting to decrease operating expenses and maximize profits
- Facilitating business process redesign and improvement

Gone are the days of paying for advice, then struggling to implement the solution. No longer will you be constrained by resource limitations within your company.

PCG will scale a solution to meet your specific needs, providing the step-by-step guidance and resources.

## business acumen

Successful projects require more than good project management methodology; they require business subject matter expertise. PCG's expertise maximizes the value of our services by combining project management with the knowledge of running successful businesses.

PCG team members have

extensive experience in managing and leading projects. Successful recent projects include:

International trade solutions

- Europe, Middle East, and Asia
- Special Economic Zones
- Bonded Logistics Parks
- Foreign Trade Warehouse Zones

International business process definition and implementation

Warehouse selection, layout design, and relocation

Enterprise system software conversion

Company acquisition and integration

Large customer custom solution design and implementation

...and many more

## what's in a name?

**PLENUS CONDICO.... What does it mean?**

The name is comprised of two Latin words:

**PLENUS** – complete    **CONDICO** - solution

***At PCG, we provide more than advice, or direction, we provide a complete solution***

# a world of solutions

We maintain global relationships with key partners to expand our range of capabilities. Between our resources and those of our strategic partners, we can source virtually anything and manage complex supply chains from start to finish. We vet, qualify, and manage these relationships to simplify the process for our customers.

We engage best-in-class partners who address specific needs of our customers and markets. Each of our partners has established documented success stories of their own. Networking these best-in-class companies has created a global solution provider that will exceed your needs.

## our services

We offer superior PMO consulting, calibrating and coordinating project expectations, managing critical milestones, and facilitating clear paths to achievement. Among the program and project management skills we deliver:

- Identify program/project objectives and scope
- Implement program/project management methodology
- Conduct resource assessment and planning
- Perform risk management and mitigation analysis
- Coordinate and ensure accountability for scheduling and overall program/project integrity
- Monitor program/project status, budget and progress using standard performance metrics and reporting
- Consult with project sponsors at all decisive junctures or intervals

## our company

PCG represents over 90+ years of successful business leadership through its alliance partners. The group's strength results from its flexible business structure, which is comprised of subject matter experts in a variety of industries. Our partners and teams are composed of trading companies, consultants, project managers, manufacturers and wholesalers as well as experienced logistics professionals. Our people understand our customers' needs firsthand, responding quickly in an effective and efficient manner.

## how to get started

Please contact us to discuss our variety of services. We will assess your needs and provide a formal proposal. Contact us to receive the **Complete Solution**.

# customer engagement process

PCG aligns its objectives with meeting our customer's objectives. Our process engages the customer and provides the resources to ensure a superior work product without over-burdening the customer.

Our toolbox contains a variety of best-in-class tools. Like any good toolbox, PCG has the right tool for unique and complex jobs.

## Microsoft Project

- Fixed date and resource leveling project management
