#### VALUES

CARING through compassion and empathy COMMITTED to safe and healthy individuals and families ACCOUNTABLE in taking responsibility for our decisions and actions RESPECTFULLY treating people with dignity and respect

#### <u>Purpose</u>

The purpose of the PARTNERS Family Services Inc. Agency Profile is to (a) capture the history and current operations of the agency through examining funding, staffing, programming and the communities the agency serves and (b) compile comprehensive information on the demographics and social infrastructure on the communities the agency wishes to serve to inform decisions made regarding future programming.

#### **Objectives**

- 1. The Board of Directors will have sufficient information about the agency and client population to make informed decisions regarding the future direction of the agency.
- 2. Agency funders will have access to comprehensive information regarding the agency and clients served that is reflective of their investment in the agency
- 3. Community will have access to a comprehensive report on the agency as whole that is reflective of the investment the community has made in the agency

#### Method

Information and date for this profile report was compiled from: agency program reports; agency statistical reports; agency financial records; agency employment records; Ministry of Social Services contracts; Ministry of Justice contracts; Community Needs Survey Results; and PARTNERS Family Services Inc. Strategic Plan (2013).

Demographic information for Community Profiles was obtained from: Statistics Canada; individual town councils or administration and Saskatoon Health Region. Note that not all information for each community was available at time of completion of this profile.

#### **History**

PARTNERS Family Services Inc., formerly known as PARTNERS for Rural Family Support, is a charitable, non-profit organization consisting of concerned individuals working together to identify, develop, improve, and maintain support of families in Humboldt and surrounding rural communities.

This grassroots organization originated in 1997, when one of Humboldt's mental health workers received a phone call from a woman who was looking for a support group for survivors of family violence. Each agency she called told her the closest group was in Saskatoon.

The mental health worker phoned the Saskatoon Family Support Center. With their help a support group was offered in Humboldt. The response was overwhelming and within three hours there was enough women to offer the first group. At a meeting of community workers in November 1997, it became evident that a partnership was required to supplement and complement services already existing in our rural area.

A partnership with The Centre for Rural Studies and Enrichment, the Universities of Regina and Saskatchewan, and Central Plains Health District enabled a research project entitled, "Domestic Violence and the Experiences of Rural Women in East Central Saskatchewan." The project report recommended that family abuse information be made more readily accessible to families in rural communities.

In June 2001, PARTNERS facilitated a Stake Holder's Action Meeting where we looked for help in generating a framework for action. Since then, various groups and sectors have worked together to develop solutions and responses to the issue.

The PARTNERS for Rural Family Support Centre opened its doors in September of 2001 and has since integrated more extensive partnering with the Departments of Justice, Health, Education, Social Services, Mental Health Services, RESOLVE Saskatchewan, local and regional organizations and agencies, as well as the religious community.

The Centre has offered support groups for many survivors of family violence in the rural Humboldt area since its inception in 1997. Requests for services have increased steadily and programs have been implemented and delivered to meet those needs depending on funding availability.

In celebration of the 10 year anniversary of the organization, a conversation café was conducted with various stakeholders involved with PARTNERS for Rural Family Support. Two questions were posed to the participants: firstly how has PARTNERS contributed to the community over the last 10 years and secondly where does the community see the organization in the next 10 years? From the results of this process rebranding of the organization and intensive proposal writing resulted in the organization becoming significantly funded through the Ministry of Social Services, Child and Family Services for the Child and Family Services Program and the Ministry of Justice and Attorney General for the Family Violence Outreach Program.

#### **Current Funding**

PARTNERS Family Services Inc. receives the majority of its funding from the Ministry of Social Services, with additional funding from the Ministry of Justice, Justice Canada and grant programs. Currently, the agency is in its third year of a three-year funding agreement with both the Ministry of Social Services and Ministry of Justice. Both current funding agreements end March 31, 2018.

TOTAL	\$362,177	\$104,706	\$466,883

PARTNERS Family Services Inc. has an operating budget of <u>\$509,180</u> for the 2016-2017 fiscal year. Funding from the Ministry of Social Services combined contracts accounts for 77% of the operating budget. Funding from the Ministry of Justice contract accounts for 10% of the operating budget. The remaining 13% of the operating budget comes from sources such as grant program income, donations, rental agreements, etc.

#### **Fundraising**

PARTNERS Family Services has a long history of fundraising to support operations. Over the past 15 years, fundraising initiatives have included bake sales, BBQs, dinner theatres, etc. Thought small in scale, these fundraisers were critical to maintaining the organization's operations.

In 2014, PARTNERS Family Services hosted its first Community Rising Gala featuring Theo Fleury as keynote speaker, as well as a supper and silent auction. The Community Rising Gala not only

raised significant funds for the organization, but was also in critical in establishing the agencies profile in the community, clarifying who PARTNERS Family Services is and what supports and services were provided.

Following the 2014 Gala, the agency held a second Community Rising Gala featuring Amanda Lindhout and the Walk a Mile in Her Shoes March to End Violence against Women and Girls in 2015. The agency was again able to raise significant funds and further established PARTNERS Family Services as a professional organization. The addition of the Walk a Mile in Her Shoes March to End Violence against Women and Girls allowed the agency to engage the community in education and awareness around family violence and was instrumental in educating the community about the work PARTNERS Family Services does.

With the establishment of a reserve fund, the decision was made by the Board of Directors to not host a Gala in 2016, but to proceed with the 2<sup>nd</sup> Annual Walk a Mile in Her Shoes March to End Violence against Women and Girls. This smaller scale fundraiser was well received by the community with feedback indicating that the event was fun and easy to participate in, well organized and educational.

Plans for future years have not be established at this time, though PARTNERS Family Services Inc. recognizes that it is crucial to ensure the agency maintains reserve funds in order to be fiscally responsible going forth.

Fundraising Event	Profit	
2014 Theo Fleury Gala	\$30,500	
2015 Amanda Lindhout and WAM Gala	\$37,000	
2016 Walk a Mile In Her Shoes	\$8,000	
TOTAL	\$75,500	
Current Internal (Unrestricted) Reserve Funds Balance = \$55,211 as of October 31, 2016

#### **Current Programming Model**

PARTNERS Family Services Inc. is in its 16<sup>th</sup> year of operations. Currently, the organization is funded through the Ministry of Social Services and Ministry of Justice for core programs, while also relying on income from grants such as the SaskLotto Fund and the Community Initiatives Fund. Current programs include:

**Family Support** – Funded by the Ministry of Social Services Child and Family Programs Unit, this program provides intensive in home family support for families with involvement or at risk of involvement with child protection

**Triple P** – Funded by the Ministry of Social Services Child and Family Programs Unit, this program is a parenting education course. Parents and caregivers engage in practical strategies for parenting through one to one, groups, seminars or online programming.

*Counselling, Support and Education* – Funded by the Ministry of Justice Child and Family Programs Unit, this program provides drop in support, education and resources in the areas of parenting, housing, income, food security, etc.

**Children Exposed to Violence Program** – Funded by Justice Canada, this therapeutic group and individual programming focuses on working with children 7 – 14 years' old who have been exposed to interpersonal violence. Individual counselling services will also be available to youth 14-24 years old. Parents of all participants under the age of 18 will be required to attend a 2-hour information session on the impact of family violence on children and family units.

*Interpersonal Violence and Abuse (IVA) Outreach* – Funded by the Ministry of Justice Interpersonal Violence and Abuse Unit, this program provides crisis intervention, short term counselling, prevention, intervention and post-vention services for individuals and families who are or are at risk of experiencing interpersonal violence and abuse.

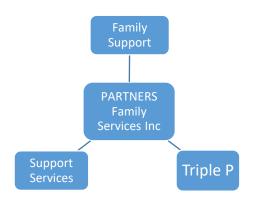

**Community Outreach Initiative** – Funded by the Community Initiatives Fund, this program offers support, education and referrals in the communities of Wakaw and Wynyard one day per week in partnership with Saskatoon Health Region.

**Rainbow Coffee** – Funded by SaskLotto Fund, and in partnership with Saskatoon Health Region Mental Health and Addictions Services, this program provides a safe space for LGBTQI youth and their allies to come together and socialize and learn in a nonjudgmental environment.

*Women's Creative* – Funded by SaskLotto Fund, this program is a bi weekly drop in program to come and engage in creative and artistic projects in a safe environment to reduce isolation for women with barriers to participation in recreational activities.

PARTNERS Family Services Inc. also offers a range of other group programming including Anger Management, Domestic Violence Support, Women's Wellness, and other programs that support safe and healthy individuals, families and communities.

Over the past three years, the agency has focused on establishing its core programming and disengaging from initiatives that fall outside the organization's resources and mission. This has resulted in PARTNERS Family Services Inc. being able to organize services into three core braches:

#### **Future Programming**

A Community Needs Survey was conducted in July and August of 2016 via an online survey. Participants were asked 20 questions on a range of topics including the accessibility of the agency, satisfaction with services, competency of staff, and what if any services they felt were missing from Humboldt and area. Participants identified the following gaps in programming:

Services as identified by survey participants all fall into the scope of programming PARTNERS Family Services may consider providing in the future, if the agency is able to secure additional stable and ongoing funding for these programs. PARTNERS Family Services Inc may also explore entering into partnerships with other community-based organizations or service providers (i.e Saskatoon Health Region) to deliver programming.

As the agency explores its avenues for growth in the coming years, it will need to take into consideration programs and services that already exist; programs and services identified as needed by the community; and available funding sources before moving ahead with expanded programs.

#### **Statistics and Outcomes**

Prior to 2012, the statistics and outcomes of various projects and services provided by PARTNERS Family Services compiled inconsistently. Prior to 2012, it is very difficult to get an accurate picture of the level of service that was provided due to missing or incomplete data reports. Most evidence of service provision prior to 2012 is reported in program reports, which consist primarily of anecdotal evidence of success (i.e statements made by clients who participated in programs). While this information is valuable in that speaks to the spirit of the agency (helping people), it makes it difficult to capture a long term picture of growth for the agency.

Beginning in 2013, and fully implemented for the 2014-2015 fiscal year, PARTNERS Family Services implemented a comprehensive stats tracking format to be completed by all employees. This new data allowed the agency to capture significantly more information about the work being done, including client contacts, referrals, case planning, domestic violence support, etc.

Based on the most accurate data available, the following is a snapshot of the use of PARTNERS Family Services programs from 2014-2016 fiscal years:

Service Areas	2014-2015 Fiscal Year	2015-2016 Fiscal Year	% Increase In Service
Safety Planning to leave	14	66	372%
IVA			
Transportation to	2	7	250 %
Shelter			
Emergency Supplies	46	37	-19 %
Advocacy Services	8	56	600%

Family Violence IVA	21	86	310 %
Support			
Referrals	508	1354	167 %
Family Support	1068 hours*	1567	47%
Triple P	0	190 families	NA

\*Note: PARTNERS Family Services Inc. did not secure the contract until October of 2014. This data is adjusted to reflect the number of hours that would have been completed in 12 months based on available information

While statistics for the 2016-2017 year will not be available until April 2017, midyear progress reports indicate that PARTNERS Family Services will again experience an increase in all areas of programming as indicated above.

In previous years, PARTNERS Family Services did not have a method in place for tracking the outcomes of its programs (outcomes defined as the results or consequence for the client after participating or engaging in programming). Desired outcomes for programming are outlined in the Ministry of Social Services contracts and are as follows:

Program	Program Outcomes

In October 2016, PARTNERS Family Services implemented a tracking tool to measure the outcomes of its programs in order to ensure that the desired outcomes as stated by the Ministry of Social Services are being achieved. The agency will be able to report on its outcomes as of April 1, 2017 to both the Ministry of Social Services and the community as a whole.

The Ministry of Justice contract does not have defined outcomes for the Interpersonal Violence and Abuse Family Violence Outreach program. In October 2016, PARTNERS Family Services, with input from the Interpersonal Violence and Abuse unit, developed the following program outcomes:

Program	Program Outcomes
Interpersonal Violence and Abuse – Family Outreach Program	<ul> <li>increased awareness in Humboldt and area of interpersonal violence and abuse supports and services available locally and provincially</li> <li>increase knowledge through presentations and workshops on the impacts of interpersonal violence and abuse on individuals, families and communities</li> <li>reduce the impact of interpersonal violence and abuse on the individuals, families and communities that access our services</li> <li>reduce the number of incidents of interpersonal violence and abuse for the individuals, families and communities that access our services</li> <li>increase the overall wellbeing of those who have experienced interpersonal violence or abuse by offering comprehensive and holistic supports and services that meet the clients goals for wellbeing</li> </ul>

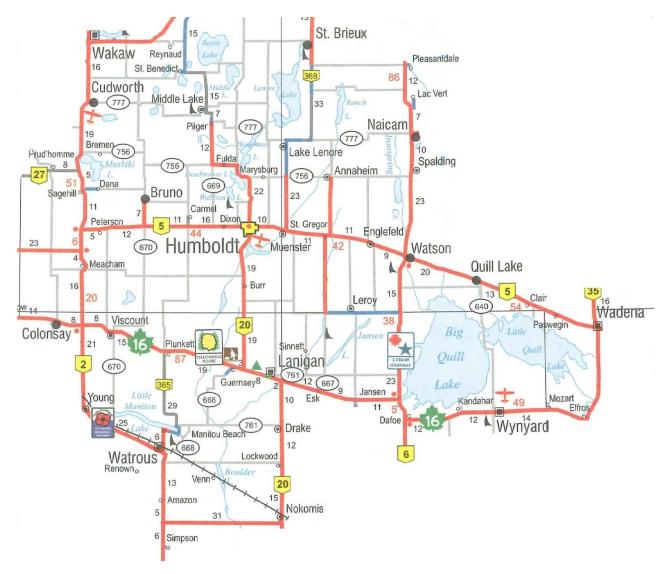

At the time the program outcomes were developed, the agency also implanted a tracking tool to measure the outcomes of this program. PARTNERS Family Services will be able to make its first report on the program outcomes to both the Ministry of Justice and the community as a whole as of April 1, 2017.
