Dear Parent,

In our effort to promote good oral hygiene and healthy teeth, Utopia Dental Care (UDC) will be visiting our school on dates to be announced. This company provides the following mobile preventive dental services:

- Dental Screening
- Sealants
- Cleaning
- Fluoride treatment
- Oral Health Instruction

They accept several types of insurance including, Delta Dental, United Concordia, Molina Market Place, and Medicaid. Please fill out the attached parental consent form and have your child return it to his/her teacher no later than one week before their scheduled visit. A report card will be sent to the parent(s) to review the date each child was seen. It will include details on the work done in your child's mouth and address issues that require further attention/treatment. If your child will need follow up care UDC will refer him/her to your private dentist or to one of their consulting dentist(s) for further evaluation. We hope that you will join us in promoting dental health.

If you need more information or have any questions, please call (505)800-9576. I hope you will join me to welcome UDC to our school. We must take an aggressive approach to control the number one childhood disease in our state: tooth decay.

Keep Smiling,

Darby G. Barkley
