**On the Threshold**

We were having a wonderful conversation with new friends this week and received the message that ***'we are on the threshold'*** as we were discussing how we might assist each other in the fulfillment of our desires and endeavors to share knowledge and wisdom.

This term 'on the threshold' really does explain the excitement and anticipation that we and many of you have expressed. *We are all on the threshold of a 'new beginning'.*

***What would it take to step through this threshold and experience the potentials that await us?***

**Celebration of Life Gathering**

Join us on **March 17th** as we gather together to connect, discover, and transcend what may be holding us back individually/collectively from fully stepping over the threshold to our desired realities. Then... after re-aligning we will partner with Mother Earth and the Masters of the Twelve Rays, in Ceremony, to initiate and anchor our newly perceived realities into existence.

***How does it get any better than that?***

## Message of the Month

The following was channeled by David  
from a ONE-TLC Board Meeting on March 3, 2015:

### Are you Ready?

"There are also provisions being made and we are representative of that whereby pristine new opportunities will be available to those souls that have completed their karmic wheel of reincarnations and are willing to embark on creative journeys of their making. This all of course is authorized, sanctified, and orchestrated by the Higher Selves, Guides, and Overseers of our realities. This is being introduced at this time because of the great strides humanity has made in their ascension process. Those souls that are ready for this type of new expression will know in their heart and feel comfortable in their Spirit prior to any transference. We know you will enjoy your new realities... those of you that are ready, willing, and able to explore further the inner and outer realms of creation. And So It Is..."

### Two Different Worlds

*Each so different yet  
each so dear...  
sometimes you see and  
sometimes you hear...  
the widths the lengths the  
heights the depths...  
measurements inadequate  
and inept.*
