TO WHOM IT MAY CONCERN:

I heartily recommend Virginia "Ginger" Korcal for all your business support needs. I have known Ginger for over fifty years and know her to be of impeccable character, so much so that I have entrusted her with passwords to all of my client matters.

I have used Ginger's services for the past several years in the areas of Litigation and Probate and have always found her to be a meticulous worker, whose end-product is flawless. Her vast experience in the legal field was particularly helpful to me last summer when she provided support and virtually ran my office from a remote location while I was out of the country for three weeks.

Ginger is a self-starter who needs no supervision, and she has been an invaluable asset to my practice.

Please feel free to contact me with any questions or concerns that you might have.

Very truly yours,
