

Tree Labels Master List - Updated 2020

Note: This is a master list of our plant labels and contains some plants that are not available for sale at this time. Please refer to the inventory list for the current season or contact us in order to check for availability of a particular plant. For Conifer trees please refer to conifer list.

Acer palmatum 'Atropurpureum'

Atropurpureum Japanese Maple

Plant type: Tree

Part Shade, Medium Water

20'x15' HxW, Usually deer resistant

Dark red leaves in spring fading to green red in summer, brilliant red fall color

Acer palmatum 'Bihou'

Bihou Japanese Maple

Plant type: Tree

Part Shade, Medium Water

15'x10' HxW, Usually deer resistant, desirable new introduction is outstanding in winter due to its bright yellow bark, chartreuse leaf color edged in red in spring, and yellow fall color.

Acer palmatum 'Butterfly'

Butterfly Japanese Maple

Plant type: Tree

Part Shade, Medium Water

10'x10' HxW, Usually deer resistant

Small light green and white variegated dissected leaves, reddish twigs

Acer palmatum dissectum 'Emerald Lace'

Emerald Lace Japanese Maple

Plant type: Tree

Part Shade to Sun, Medium Water

5'x8' HxW, Usually deer resistant

Lacy leaves are lime green edged in orange in spring turning bright red in fall, mounded form that is slightly weeping, heat & sun tolerant

Acer griseum

Paperbark Maple

Plant type: Tree

Part Shade, Medium to high water

25'x15' HxW, Usually deer resistant, Cinnamon color peeling bark provides wonderful winter interest, large green leaves are red in the fall

Acer palmatum 'Beni Fushisi'

Beni Fushisi Japanese Maple

Plant type: Tree

Part Shade, Medium Water

6'x5' HxW, Usually deer resistant

Also called Red Mystery Japanese Maple, slightly crinkled leaves emerge bright red changing with a collage of colors to dark red at end of summer

Acer palmatum 'Bloodgood'

Bloodgood Japanese Maple

Plant type: Tree

Part Shade, Medium Water

30'x15' HxW, Usually deer resistant

Dark red leaves in spring fading to green red in summer, red fall color

Acer palmatum dissectum 'Crimson Queen'

Crimson Queen Japanese Maple

Plant type: Tree

Part Shade, Medium Water

5'x5' HxW, Usually deer resistant, Fine cut, reddish leaves with serrated edges, red fall color

Acer palmatum dissectum 'Garnet'

Garnet Japanese Maple

Plant type: Tree

Part Shade, Medium Water

6'x8' HxW, Usually deer resistant

Fast growing, dissected leaves, red orange in spring turning garnet red in the fall

Acer palmatum dissectum 'Inaba Shidare'
Inaba Shidare Japanese Maple

Plant type: Tree
Part Shade, Medium Water
6'x8' HxW, Usually deer resistant, Name means
"like the cascading leaves of the rice plant", has
a very nice mounded form with finely cut, dark
purple leaves in spring, red fall color

Acer palmatum 'Okusshimo'
Okusshimo Japanese Maple

Plant type: Tree
Part Shade, Medium Water
10'x5' HxW, Usually deer resistant
Dark green finely dissected leaves, upright form

Acer palmatum 'Peaches & Cream'
Peaches and Cream Japanese Maple

Plant type: Tree
Part Shade, Medium Water, 6'x6' HxW, Usually
deer resistant, spring color is rosy peach over
creamy white with green veins fading to white in
summer followed by a pale yellow orange in fall -
this one is as yummy as its name implies!

Acer palmatum 'Sango Kaku'
Coral Bark Japanese Maple

Plant type: Tree
Part Shade to Sun, Medium Water
20'x15' HxW, Usually deer resistant
Coral stems in winter, bright lime green leaves,
bright yellow fall color, upright columnar habit,
sun and heat tolerant

Acer palmatum dissectum 'Sieryu'
Sieryu Japanese Maple

Plant type: Tree
Part Shade, Medium Water
15'x10' HxW, Usually deer resistant
Excellent yellow, green orange, and red fall color
with finely dissected green leaves in summer

Acer palmatum dissectum 'Lionheart'
Lionheart Japanese Maple

Plant type: Tree
Part Shade to Sun, Medium Water
15'x18' HxW, Usually deer resistant
Brilliant red leaves in spring fading to bronze red
in summer followed by bright red fall color,
vigorous grower with good heat & sun tolerance

Acer palmatum dissectum 'Orangeola'
Orangeola Japanese Maple

Plant type: Tree
Part Shade, Medium Water
4'x6' HxW, Usually deer resistant, heat tolerant,
very pendulous form with striking color changes
ranging from green to orange in spring, purple to
green in summer, & standout orange red in fall.

Acer palmatum 'Red Pygmy'
Red Pygmy Japanese Maple

Plant type: Tree
Part Shade, Medium Water, 6'x4' HxW, Usually
deer resistant, linearilobum type with narrow
long leaves, red spring color turning rich deep
green in summer and bright gold in fall, could be
one of the best all round Japanese Maples!

Acer palmatum 'Shishgashira'
Lion's Head Japanese Maple

Plant type: Tree
Part Shade, Medium Water
5'x5' HxW, Usually deer resistant
Very small dark green ruffled and dissected
leaves, slow growing, vibrant mix of yellow, red
and orange fall color, great for bonsai

Acer palmatum dissectum 'Tamukeyano'
Tamukeyano Japanese Maple

Plant type: Tree
Part Shade, Medium Water
15'x10' HxW, Usually deer resistant
Lace leaf maple with deep red/purple foliage
changing to scarlet in the fall, fast growing

Acer palmatum 'Trompenburg' **Trompenburg Japanese Maple**

Plant type: Tree

Part Shade, Medium Water

15'x10' HxW, Usually deer resistant

Large dissected leaves, tinted burgundy with red twigs

Acer palmatum dissectum 'Viridis' **Viridis Japanese Maple**

Plant type: Tree

Part Shade, Medium Water

10'x10' HxW, Usually deer resistant

Fine textured bright green dissected leaves with serrated edges, wonderful weeping form

Aesculus pavia **Red Buckeye**

Plant type: Tree

Part Shade, Medium Water

10'x10' HxW, Usually deer resistant

Showy red flowers, shiny brown fruit, native

Betula nigra 'Fox Valley' **Fox Valley Dwarf River Birch**

Plant type: Tree

Sun, Medium Water

5'x5' HxW, Usually deer resistant, native cultivar, Dwarf and slow growing, peeling bark, makes great specimen tree or container plant.

Cercis canadensis 'Floating Clouds' **Floating Clouds Redbud**

Plant type: Tree

Part Shade to Full Sun, Low Water

20' x 20' HxW, Usually deer resistant, native cultivar, Lovely white & green variegated leaves, does not burn in full sun, pink to purple flowers

Acer palmatum 'Waterfall' **Waterfall Japanese Maple**

Plant type: Tree

Part Shade, Medium Water

6'x8' HxW, Usually deer resistant, lovely weeping domed habit that softly cascades to the ground like a waterfall, bright green spring & summer color changes to red, gold and orange for fall.

Aesculus parviflora **Bottlebrush Buckeye**

Plant type: Tree

Part Shade, Medium Water

12'x12' HxW, Usually deer resistant

Long white bottlebrush flowers, native

Asimina triloba **Pawpaw**

Plant Type: Tree, Deciduous

Part Shade to Sun, Medium to High Water

20' x 20'HxW, Deer Resistant, SE Native with purple bloom in spring, fruit is showy and edible readily eaten by wildlife tastes like bananas

Cercis canadensis 'Covey' **Lavendar Twist Weeping Redbud**

Plant type: Tree

Part Shade, Low Water

5'x5 to 10' HxW, Usually deer resistant, native cultivar, Weeping form, dark pink to purple flowers

Cercis canadensis 'Hearts of Gold' **Hearts of Gold Redbud**

Plant type: Tree

Part Shade to Full Sun, Low Water

20' x 20' HxW, Usually deer resistant, native cultivar, gold foliage in spring and summer, does not burn in sun, pink to purple fl.

Cercis chinensis 'Don Egolf'
Don Egolf Chinese Redbud

Plant type: Tree
Part Shade, Low Water
12' HxW, Usually deer resistant, native cultivar,
Rose to purple flowers, glossy bright green leaves

Cercis canadensis 'Merlot'
Merlot Redbud

Plant type: Tree
Part Shade, Low Water
20'x20' HxW, Usually deer resistant, native
cultivar, Reddish purple foliage, pink flowers,
superior to Forest Pansy Redbud

Chionanthus retusus 'Tokyo Tower'
Chinese Fringe Tree

Plant type: Tree
Part to Full Sun, Low Water
15' x 5' HxW, Usually deer resistant
Columnar Form, Large fringelike white flowers in
early spring, grey bark, yellow fall color

Cornus florida x kousa 'Celestial'
Celestial Dogwood

Plant type: Tree
Part to Full Sun, Medium Water
20' x 20' HxW, Usually deer resistant
Hybrid between native & Chinese Kousa dogwood
means more disease resistance, vigorous grower,
profuse flowers are white in color, no fruit

Cottinus coggygria
Purple Smoke Tree

Plant type: Tree
Full Sun, Medium Water
15' x 15' HxW, Usually deer resistant
Purple foliage fading to green in summer, green
to pink smoke like flowers

Cercis canadensis 'Ruby Falls'
Ruby Falls Weeping Redbud

Plant type: Tree
Part Shade, Low Water
5'x5 to 10' HxW, Usually deer resistant, native
cultivar, Dwarf weeping form, lavender flowers,
new foliage is burgandy turning green during
summer

Cercis canadensis 'Vanilla Twist'
Vanilla Twist Redbud

Plant type: Tree
Part Shade, Low Water
20'x20' HxW, Usually deer resistant, native
cultivar, new selection of redbud with a unique
weeping and twisted form with wonderful white
flowers and bright green leaves

Chionanthus virginicus
Fringe Tree

Plant type: Tree
Part to Full Sun, Low Water
12' x 12' HxW, Usually deer resistant
Native, Large fringelike white flower clusters in
early spring, grey bark, yellow fall color

Cornus kousa
Kousa Dogwood

Plant type: Tree
Part to Full Sun, Medium Water
20' x 20' HxW, Usually deer resistant
Light green maturing to white flowers, disease
resistant, red fall color

Davidia involucrata
Dove Tree

Plant type: Tree
Part to Full Sun, Medium Water
20' x 20' HxW, Usually deer resistant, Deciduous,
vivid green heart shaped leaves with white
flowers resembling doves resting in tree

Diospyros kaki 'Fuyu'

Fuyu Japanese Persimmon

Plant Type: Tree, Deciduous

Sun, Medium Water, 20' x 20' HxW

This popular persimmon has deep-orange fruit which is non-astringent, even when unripe (unlike its native relative), fruit keeps well.

Fagus grandiflora

American Beech

Plant type: Tree

Sun to Shade, Medium Water

60' x 40' HxW, Usually deer resistant, native, deciduous, dark green leaves with distinct veins turning an attractive golden brown in fall and persisting through the winter months

Ginkgo Biloba 'Saratoga'

Saratoga Ginkgo Tree

Plant type: Tree, Deciduous

Sun, Drought Tolerant, 30'x15' HxW, Deer Resistant, unique fan shaped leaves, bright yellow fall color, male plants, Saratoga is a slower growing form with dense branching that can be maintained as a large shrub if desired.

Ilex x 'Nellie R. Stevens'

Nellie R. Stevens Holly

Plant type: Tree

Shade, Medium Water

25' x 15' HxW, deer resistant, evergreen with glossy dark green leaves, lovely red berries, hollies are great as specimen trees or for screening.

Ilex x 'Whoa Nellie'

Golden Nellie R. Stevens Holly

Plant type: Tree

Shade, Medium Water

25' x 15' HxW, deer resistant, golden sport of Ilex 'Nellie R. Stevens' from Mike Dirr, new growth is bright gold, old inner foliage is dark green, bright red berries in fall and winter. Stunning specimen!

Eriobotrya japonica

Loquat

Plant type: Tree

Sun to Part Shade, Medium Water

20' x 15' HxW, Usually deer resistant, dark green attractive leathery leaves with prominent veins provide a tropical appearance, flowers are fragrant but not showy, edible gold colored fruit

Franklinia altahama

Franklinia

Plant type: Tree

Part to Full Sun, Medium Water

15' x 15' HxW, Usually deer resistant, once a Georgia native, white flowers in fall resemble camellias (both are in the tea family)

Halesia tetraptera

Silver Bell

Plant type: Tree

Part Shade to Full Shade, Medium Water

40' x 35' HxW, Usually deer resistant
Clusters of white bell shape flowers, native, yellow fall color

Ilex x 'Nellie R. Stevens'

Yellow Berried Nellie R. Stevens Holly

Plant type: Tree

Shade, Medium Water

25' x 15' HxW, deer resistant, evergreen with glossy dark green leaves, Flo Chaffin tells us these will have yellow berries, hollies are great as specimen trees or for screening.

Koelreuteria paniculata

Golden Rain Tree

Plant type: Tree

Part to Full Sun, Low Water

30' x 25' HxW, Usually deer resistant
Large showy yellow flower panicles in late summer, yellow fall color

**Lagerstroemia indica ‘Natchez’
Natchez Crape Myrtle**

Plant type: Tree
Part Shade, Medium Water
20' x 20' HxW, Usually deer resistant, Multi-trunk tree with interesting bark, white flowers, recommend no severe pruning (Crape Murder)!!!

**Magnolia grandiflora ‘Little Gem’
Little Gem Southern Magnolia**

Plant type: Tree
Sun to Part Shade, Medium Water
25' x 15' HxW, Usually deer resistant, native cultivar, dwarf form of our classic Southern Magnolia with glossy evergreen leaves and huge white fragrant flowers

**Magnolia macrophylla ‘Ashei’
Dwarf Big Leaf Magnolia**

Plant type: Tree
Shade, Medium Water
12' x 12' HxW, Usually deer resistant
Dwarf form but still has the wonderful huge leaves and large white fragrant flowers, rare native, deciduous, lemon fall color

**Magnolia stellata ‘Royal Star’
Royal Star Magnolia**

Plant type: Tree
Part Shade to Full Sun, Medium Water
10' x 20' HxW, Usually deer resistant
White fragrant flowers have 25 to 30 petals, deciduous

**Magnolia x ‘Betty’
Betty Magnolia**

Plant type: Tree
Part Shade to Full Sun, Medium Water
20' x 15' HxW, Usually deer resistant, This is the magnolia everyone asks about in our gardens when it is blooming, huge 8" cup shaped rosy purple flowers in early spring, deciduous

**Liquidambar styraciflua ‘Oconee’
Oconee Dwarf Sweetgum**

Plant type: Tree
Part Shade, Medium Water
8' x 8' HxW, Usually deer resistant, native cultivar, dwarf form with multiple stems, slow growing, red purple fall color, unique specimen

**Magnolia macrophylla
Big Leaf Magnolia**

Plant type: Tree
Shade, Medium Water
50' x 30' HxW, Usually deer resistant
Huge Leaves, white fragrant flowers, rare native, deciduous, lemon fall color

**Magnolia soulangiana ‘Leonard Messel’
Leonard Messel Magnolia**

Plant type: Tree
Part Shade to Full Sun, Medium Water
20' x 15' HxW, Usually deer resistant
Pink to white blooms in early spring, deciduous

**Magnolia virginiana
Sweetbay Magnolia**

Plant type: Tree
Part Shade to Full Sun, Medium Water
20' x 20' HxW, Usually deer resistant
Semi-evergreen, white fragrant flowers, native

**Magnolia x ‘Jane’
Jane Magnolia**

Plant type: Tree
Part Shade to Full Sun, Medium Water
20' x 15' HxW, Usually deer resistant, Later blooming than some other deciduous magnolias so less likely to be hit by frost, large cup shaped rosy purple flowers in early spring

Magnolia x soulangeana ‘Alexandrina’
Alexandrina Saucer Magnolia

Plant type: Tree
Part Shade to Full Sun, Medium Water
25' x 25' HxW, Usually deer resistant, huge 8" cup shaped rosy purple flowers with white interiors in early spring, deciduous

Oxydendrum arboreum
Sourwood

Plant type: Tree
Part Shade to Full Sun, Medium Water
50' x 25' HxW, Usually deer resistant, beautiful flowering native tree, slow growing, fragrant white bell shaped flower clusters, brilliant fall color, showy long seed capsules into winter

Pistacia chinensis
Chinese pistache

Plant type: Tree
Part Shade to Full Sun, Low Water
35' x 35' HxW, Usually deer resistant
Yellow orange red fall color, drought tolerant

Prunus mume ‘Matsubara Red’
Matsubara Red Flowering Almond

Shrub to small Plant type: Tree
Sun, Medium Water
20'x15' HxW, Usually deer resistant
Red flowers in January/February

Stewartia pseudocamellia
Japanese Stewartia

Plant Type: Small Tree
Sun, Low Water
20'x20'HxW, Deer Resistant
Deciduous, bronze to purple fall color, attractive scaly bark that looks like puzzle pieces, white flowers in early summer that look like camellias.

Morus bombycis ‘Unryu’
Contorted Mulberry

Plant type: Tree
Part Shade to Full Sun, Medium Water
25' x 20' HxW, Usually deer resistant, Wonderful specimen tree (see one is located next to parking area), has twisted branches that are great for floral decorations, fast growing, deciduous

Parrota persica
Persian Parrotia

Plant type: Tree
Part Shade to Full Sun, Medium Water
15' x 15' HxW, Usually deer resistant
Leaves change from yellow to orange to red in fall, spring, fuzzy red flowers in early spring

Prunus mume ‘Bonita’
Bonita Flowering Apricot

Plant type: Tree
Sun, Medium Water
20'x15' HxW, Usually deer resistant
Late winter blooming ornamental apricot tree with large bright pink, semi-double ruffled flowers

Prunus x ‘Okame’
Okame Flowering Cherry

Plant type: Tree
Sun, Medium Water
20'x20' HxW, Usually deer resistant
Late winter blooming ornamental cherry with bright pink flowers, longer flowering than most other cherries, good for south

Styrax americanus
American Snowball

Plant type: Large Shrub to Small Tree
Part to Full Sun, Medium Water
10' x 8' HxW, Usually deer resistant
Native, Deciduous with bright green foliage, white bellshaped flowers in early to midsummer, showy fruit

Vitex agnus-castus 'Shoal Creek'

Shoal Creek Lilac Chaste Tree

Plant Type: Shrub to Small Tree

Sun, Low Water

10'x6'HxW, Deer Resistant

Deciduous, palmate leaves, deep blue fragrant flowers in Summer
