

MĀORI EDUCATION DEVELOPMENT INITIATIVES

Are you ready to develop new and innovative ways to meet the learning needs of Māori students in your school or learning centre?

Are you prepared to step outside of the box and make a difference for Māori students?

If so, then I would love to work with your school to help you develop meaningful education initiatives for Māori students within your school. Whether it is the development of a bilingual unit, a kaupapa Māori unit, specific programmes for Māori students, the development of Whānau centres or Whānau rooms, then I can help you to take the steps to achieve such initiatives.

All Māori students have the right to learn as Māori and there are many innovative ways that this can be achieved in truly meaningful ways utilizing a Māori world view.
