Overview

According to the Center for Disease Control and Prevention (CDC), a new Coronavirus (2019 Novel Coronavirus or COVID-19) was first detected in China and is now spreading across the world, including New York State. This document is intended to provide the latest information that is available from _**government sources only**_ in order to allow you to answer questions related to the latest developments regarding COVID-19.

For more information call the New York State Coronavirus Hotline at 1-888-364-3065.

Local Impact

Everyone is encouraged to stay in regular contact with State and local officials for the most up-to-date protocols and announcements on Coronavirus.

Telehealth Services

Telehealth services may be beneficial to individuals experiencing Coronavirus symptoms and are unsure what to do. Individuals are advised to check with their health insurance providers to see if telehealth services are available. Utilizing telehealth services can reduce ER visits and allow individuals to access the advice of health care professionals from the safety of their own home.

TOTAL NUMBER OF CASES STATEWIDE: 379,482

State News Updates

June 9, 2020

- **Governor Cuomo held a press conference at 11:30 AM and announced the following:**
    - Total hospitalizations at 2,344 on June 8.
    - Total deaths increased by 49 on June 8.
    - Mid-Hudson Region enters Phase Two today.
    - Long Island will enter Phase Two tomorrow.
    - New analysis:
        - Focus on day-to-day viral spread.
        - Alert to day-to-day testing numbers.
        - Time for a new dashboard that will now post daily test results by region (and by county).

Date: June 8	# of Tests	Positive	% Positive
Capital Region	1889	18	1%
Central New York	1703	24	1%
Finger Lakes	4467	46	1%
Long Island	7257	82	1%
Mid-Hudson	5881	73	1%
Mohawk Valley	1664	17	1%
New York City	18789	340	2%
North Country	521	2	0%
Southern Tier	2607	6	0%
Western New York	5195	75	1%

- This will tell on a day-to-day basis if a spike is starting.
- When the numbers move, the contact tracing operation begins and they reach out to the individual who tested positive.
- This may lead to being able to find where and how an outbreak starting.
- This is the new focus, and this is the new dashboard that will be used going forward.
