

## Candida Questionnaire and Score Sheet

If you'd like to know if your health problems are yeastconnected, take this comprehensive questionnaire.

Questions in Section A focus on your medical history—factors that promote the growth of *Candida albicans* and that frequently are found in people with yeast-related health problems.

In Section B you'll find a list of 23 symptoms that are often present in patients with yeast-related health problems. Section C consists of 33 other symptoms that are sometimes seen in people with yeast-related problems—yet they also may be found in people with other disorders.

Filling out and scoring this questionnaire should help you and your physician evaluate the possible role *Candida albicans* contributes to your health problems. Yet, it will not provide an automatic "yes" or "no" answer.

## **Section A: History**

<ol> <li>Have you taken tetracyclines or other antibiotics for acne for 1 month (or longer)?</li> <li>Have you at any time in your life taken broadspectrum antibiotics or other antibacterial medication for respiratory, urinary or other infections for two months or longer, or in shorter courses four or more times in a one-year period?</li> <li>Have you taken a broad-spectrum antibiotic drug—even in a single dose?</li> <li>Have you, at any time in your life, been bothered by persistent prostatitis, vaginitis or other problems affecting</li> </ol>	oint Score
<ol> <li>Have you at any time in your life taken broadspectrum antibiotics or other antibacterial medication for respiratory, urinary or other infections for two months or longer, or in shorter courses four or more times in a one-year period?</li> <li>Have you taken a broad-spectrum antibiotic drug—even in a single dose?</li> <li>Have you, at any time in your life, been bothered by</li> </ol>	
antibiotics or other antibacterial medication for respiratory, urinary or other infections for two months or longer, or in shorter courses four or more times in a one-year period?  3. Have you taken a broad-spectrum antibiotic drug—even in a single dose?  4. Have you, at any time in your life, been bothered by	35
urinary or other infections for two months or longer, or in shorter courses four or more times in a one-year period?  3. Have you taken a broad-spectrum antibiotic drug—even in a single dose?  4. Have you, at any time in your life, been bothered by

## **Section B: Major Symptoms**

For each of your symptoms, enter the appropriate figure in the Point Score column:				
If a symptom is <b>occasional or mild</b>	6 points			
Add total score and record it at the end of this section.	<b>Point Score</b>			
1. Fatigue or lethargy				
2. Feeling of being "drained"				
3. Depression or manic depression				
4. Numbness, burning or tingling				
5. Headache				
6. Muscle aches				
7. Muscle weakness or paralysis				
8. Pain and/or swelling in joints				
9. Abdominal pain				
10. Constipation and/or diarrhea				
11. Bloating, belching or intestinal gas				
12. Troublesome vaginal burning, itching or discharge				
13. Prostatitis				
14. Impotence				

Point Scor
15. Loss of sexual desire or feeling
16. Endometriosis or infertility
17. Cramps and/or other menstrual irregularities
18. Premenstrual tension
19. Attacks of anxiety or crying
20. Cold hands or feet, low body temperature
21. Hypothyroidism
22. Shaking or irritable when hungry
23. Cystitis or interstitial cystitis
TOTAL SCORE, Section B
Section C: Other Symptoms
For each of your symptoms, enter the appropriate figure in the Point Score column:
If a symptom is <b>occasional or mild</b>
Add total score and record it at the end of this section.
1. Drowsiness, including inappropriate drowsiness
2. Irritability

		Point Score
3.	Incoordination	
<del>4</del> .	Frequent mood swings	
<del>5</del> .	Insomnia	
6.	Dizziness/loss of balance	
7.	Pressure above ears feeling of head swelling	
8.	Sinus problems tenderness of cheekbones or forehead	
9.	Tendency to bruise easily	
10	D.Eczema, itching eyes	
11	.Psoriasis	
12	2. Chronic hives (urticaria)	
13	5. Indigestion or heartburn	
14	Sensitivity to milk, wheat, corn or other common foods	
15	5. Mucus in stools	
16	5. Rectal itching	
17	.Dry mouth or throat	
18	3. Mouth rashes, including "white" tongue	
19	D.Bad breath	
<del>2</del> 0	O. Foot, hair or body odor not relieved by washing	
<del></del> 21	.Nasal congestion or postnasal drip	

	Point Score
22. Nasal itching	
23. Sore throat	
24. Laryngitis, loss of voice	
25. Cough or recurrent bronchitis	
26. Pain or tightness in chest	
27. Wheezing or shortness of breath	
28. Urinary frequency or urgency	
29. Burning on urination	
30. Spots in front of eyes or erratic vision	
31.Burning or tearing eyes	
32. Recurrent infections or fluid in ears	
33.Ear pain or deafness

Total Score, Section A	
Total Score, Section B	
GRAND TOTAL SCORE	

The Grand Total Score will help you and your physician decide if your health problems are yeast-connected. Scores in women will run higher, as seven items in the questionnaire apply exclusively to women, while only two apply exclusively to men.

Yeast-connected health problems are almost certainly present in women with scores more than 180, and in men with scores **more than 140.** 

Yeast-connected health problems are probably present in women with scores more than 120, and in men with scores more than 90.

Yeast-connected health problems are possibly present in women with scores more than 60, and in men with scores more than 40.

With scores of less than 60 in women and 40 in men, yeasts are less apt to cause health problems.
