"PLAY IS THE WORK OF CHILDHOOD."

Young children learn best by direct hands-on experience. They need to actively explore and manipulate materials and toys; discovering answers, properties, relationships, skills and concepts for themselves.

We are pleased to offer age appropriate curriculum, an approach that meets educational goals based on research on how young children learn best. Play is an endeavor of starting a lifelong path of learning, and having fun along the way!

~ Thank you all, Miss Julie, Center Director
