

We Bring the dealer to you!!!

**Tired of not making money on electrical problems?
New computer equipment breaking the bank?
Want to stop losing jobs to the dealer?**

Mr. Diagnostic is a mobile diagnostic and computer programming company that brings the manufacturers computers to your shop and does what the dealer does right in one of your bays. The best part is you get to charge your customer for our service and still get the repair job on your invoice instead of the dealer getting it.

Call for an appointment today! 401-258-2081
