We would appreciate the opportunity to work with your Home Health staff as Your *“Boots on the Ground”* Certified Medical Wound Providers. Wound and Medical Outreach Clinic consists of Florida licensed, Part B Medicare NP Field Providers with National Board Certification as Certified Wound Specialists providing Speciality Medical Management in the Home/ALF Setting. We accept referrals from ALFs as well as Home Health with PCP notification for acute/chronic complex wounds, surveillance of those at high risk for wounds and recalcitrant dermatologic issues in Eastern Hillsborough, North Manatee and Polk Counties.

Please note, we have requested referring ALF’s identify their top 3 preferred Home Health agencies during our credentialing process and generally defer to this preference. Stream-lined communications and rapid deployment is critical. To this end feel it is important you have the information below.

Please find information below to assist with completion of 485 and Fax with your notes to 800-351-2611 or EMR Fax 949-577-4245. If they already have an active 485 just a send us a copy of your orders and notes to verify accuracy. As ordering provider, we will be happy to review & sign. On review of 485, and/or HH notes for quality review we will be sending you & their PCP a full copy of our progress notes to facilitate team communication.

Form 485:

Block 5: Provider No.: 1205877560

Block 7: Provider Address and Phone #:
