

Tuning Fork Therapy for Reflexologists

Tuning Fork Therapy for Reflexologists

Reflexology with Tuning Forks. Tuning forks are used as sound therapy and can be combined as part of a general Reflexology treatment, or as an add-on at the end of a treatment to enhance the healing benefits. Tuning forks provide vibrational healing and can be used in many ways.

Tuning forks can also be used as part of a regular Reflexology treatment to encourage a deeper sense of relaxation, and general feeling of wellbeing. The forks can also be used at the end of a treatment on any reflexes that show imbalance or congestion to intensify the healing process.
