In keeping with the Occupational Employment Statistics staff's high standards, Arkansas achieved the sixth highest ranking among all states regarding the Arkansas Wage Survey. Arkansas had 85.0 percent of employers responding, according to the Bureau of Labor Statistics' final analysis of the 2012 May panel. Responses covered 71.7 percent of people employed by all sampled companies. BLS expects states to achieve an employer response rate of 75 percent and a response covering 65 percent of employees in all sampled companies. www.discover.arkansas.gov. It's also distributed yearly through publication form. BLS provides the procedures, funds the survey, provides technical support, draws the sample and produces the survey materials, while the Labor Market Information Section collects the data and compiles the information into usable formats.

The survey produces Arkansas specific occupational wage estimates across all industries, utilizing three full years, or six panels, of data. In the field of Mason, Carpentry, Construction, Landscaping, Culinary, Cosmetology and Welding, there is an 85% placement rate with a high level of financial compensation expectancy. The Arkansas Wage Survey information originates from semiannual collection panels. It is released through the following Web site:
