### Media Release

## **NEW IT PARTNERSHIP PROVIDES STATE-OF-THE-ART OPERATIONAL AND SECURITY SUPPORT FOR BUSINESS**

**Columbus, Ohio**,– IG Solutions Provider, LLC, a consulting service provider in the field of Records and Information Management and Governance located in Columbus, Ohio, has joined forces with **Needling Worldwide**, an IT compliance and certification consultant based in Atlanta, Georgia, to provide a comprehensive list of value-added offerings to businesses worldwide.

**IG Solutions Provider, LLC** will provide high-quality Records Management and Information Governance services and solutions to support projects focused on workflow solutions, business intelligence tools, back office services, system integration, and process improvement as well as development and implementation of SOPs supported by an effective training program.

**Needling Worldwide** will help organizations to assess, strategize and build robust and comprehensive Information Security Management Systems, assisting each organization to reach its certification/compliance requirements in a timely and effective manner, and backed by a team that can walk through the entire certification process and/or all regulatory compliance requirements.

Jointly, the two organizations provide leadership for the process of organizing and understanding all aspects of change management to successfully implement new workflow process and conduct certification readiness or security risk assessments to satisfy both internal and external audits.

Executives of both companies are well-known in the information management and governance field and are highly sought after by national and international organizations that value the need for compliance, security awareness and certification. For more than 25 years, Camille Habayeb, Executive Managing Director of **IG Solutions Provider LLC**, has dedicated his professional life to growing businesses and influencing the growth of the Records Management industry. Paige Needling, President and CEO of **Needling Worldwide**, contributes over 20 years of IT project/program management, information security, and data privacy protection experience with proven expertise in planning, organizing, CRM and negotiation with a proven ability to build, lead, and motivate teams.

"This is a big step in the progression of the growth of the expertise and reputation of both outstanding organizations," said Habayeb. "Companies who have benefited from the high-quality project outcomes for which the leadership of each of these companies is known recognize the powerful synergies that this partnership can provide."
