

Allen Laffoon - Class of 1956

I lived at 2919 East 73rd Street. My brother James also went to Southeast. I participated in basketball and track. It was the 50s and we had a great time.

Outside of school, I worked, played baseball and went swimming.

After graduation I attended the University of Missouri and received my B.S. and M.S. degrees in Civil Engineering. I served in the Army before starting work. I was an engineer with MoDOT, raised two great kids and I'm enjoying the companionship of a wonderful, loving wife.
