The Place of the Solitaires: for soprano, oboe and piano

## The Place of the Solitaires

Let the place of the solitaires  
Be a place of perpetual undulation.

Whether it be in mid-sea  
On the dark, green water-wheel,  
Or on the Beaches,  
There must be no cessation  
Of motion, or of the noise of motion,  
The renewal of noise  
And the manifold continuation;

And, most, of the motion of thought  
And its restless iteration,

In the place of the solitaires,  
Which is to be a place of perpetual undulation.

Notes:

#1 The Soprano should always be at the fore.

#2 The range and distinction of the dynamics from one another as well the articulative markings, should be made minimal.

#3 The music contained here-in was composed such that the Soprano, Oboe and Piano are heard as separate, musical structures. As a result the performers are asked to allow a large enough spatial gap between them such that the listener perceives three sound sources yet is aware of the combinations formed by the various musics together.
