PARENTING REFERENCE QUESTIONNAIRE

You are being asked to participate in a child custody evaluation. The purpose of the evaluation is to make recommendations to the court when parents cannot agree on the best parenting plan for their child or children. Each parent has been asked to identify references to complete a questionnaire about their parenting. Your participation is voluntary. **Your responses are not confidential** - they may be shared with the court, the attorneys, and the parties involved in this suit. You may be called and asked additional questions about your responses.

Please do not return your response to the parent who asked you to complete this questionnaire. Send your completed questionnaire *as soon as possible* directly to:
