Welcome to the **2018 Biggest Racks Bull Book**. It is the most exciting time of year, getting to seeing new pictures of bulls & their growing stats. It is fun to see what bulls are getting the industry excited. Enjoy the following pages of outstanding bulls. Use this as a reference all year long. The book and website will continue to grow so feel free to contact biggestracks@gmail.com & submit your bulls; the new, the old and the up & coming, to be included on the website at any time throughout the year or in the next printed edition. For a digital copy of this book as well as updated pictures and scores go to www.biggestracks.com. If you missed this printing but want to advertise your bulls on the website right away please contact us (403)783-0226 biggestracks@gmail.com

THANK YOU FOR SUPPORTING OUR HERD DISPERSAL

JOIN US FOR OUR FARM SALE SEPTEMBER 25TH!

AHDW 513 Score 462"

AHDW 647 Score 436"

We would like to announce our retirement from elk ranching as of October 1, 2018.

Our retirement herd dispersal sale will take place on August 10, 2018 and consists of over 100 elk including exceptional cows, calves, and bulls from 25 years of carefully selected typical breeding. Breeding bulls will also be available. The sale will be a satellite sale held in Nisku, Alberta by Gateway Auctions.

Go to www.gwacountry.com for more information

This will conclude 25 good years in the elk business.
Thank you to all who supported us through thick & thin!

Amped Up ABOO-99A is the son of Axle, an impressive sire who was "2nd Place Elk Expo of 5 yr old 2013 competition with 48.72 lbs" velvet and a green antler score estimated at 545" in 2015. Amped Up is better than his sire Axle and above all that he has a very good disposition. He is an outstanding bull with tremendous width and symmetry, he shows great style and mass. Amped up will be used in the breeding program at Rusty Bucket so he can put this width into many outstanding hunt bulls in the years to come.

Frisia Daniel 176B was built by the legendary Mr. John Kooistra. This bull is a blend of some of the greatest genetics from John's farm and he is CWD Genotype LL. Daniel officially scored 408 2/8" at 2 years old and 446" on his head (unofficial) as a 3 year old with a 61" spread. This bull made the trip to Missouri in early May of this year and we are pleased with his 7X7 typical look this year at 4 years old. Limited breeding stock and semen will be available from Daniel in 2019.

		AGPE 245S

Here is a opportunity for the typical fans from our up and coming sire. Garmadon scored 355" at 2 yrs, 383 2/8" at 3 yrs and growing strong at 4 years. With a clean typical frame like this his sons will be in demand by the preserves. Along with his production comes a strong line of

pedigree. His sire is X-ray (532 SCI master measured) out of a Levi dam (Levi and 575 green), and the Grand Dam is by Prospect (Prospect 568" Green). Three generations of sires well over 500 and for those looking for an interesting out cross from the traditional Alberta lines here it is. Semen is stored at Livestock Reproductive Technologies and is available in Canada and the United States.

RAISIN BREAD ALFL92
AECK 105

Hook was a flat top wide bull at two when we velveted him, I wanted to grow him out at two but he was the first bull in the squeeze in the group and after cutting a few bulls the crew said " Hey where's that bull Barry wanted to grow out. ...oops. I liked him at two with 16.10 lbs he had more style so I over looked the lighter weight and he saw some heifers. Hook got grown out at 3 yrs and just snuck over the bar to 401 6/8" on his head. Thanks Mr. Steem for scoring him in my absence. Hook is a Horizon son out of one of our stand by foundation cows that produces above average offspring every time. Please check www.biggestracks.com for updates.

Imperius is an amazing young bull out of our AI program, producing 19.2lbs at 2 and 500 1/8" with 52" inside spread at 3 years old on his head, 546" at 4 yrs on his head and 46 lbs of velvet at 5 years earning him 1st place at the AEC EXPO. He is a very clean bull with a lot of action at the back end. A lot of his traits can be seen coming from his parents (width, tine length, extra tines at the back, velvet wt. etc etc.). Don't miss out on this next generation bull.

Phantom is a young bull out of AFRI 52U that has already proven himself to be a powerhouse in both antler production as well as the ability to pass along his genetics to his offspring. He scored 220" AEC official as a spiker and cut 26.15 lbs of antler as a 2 year old AEC official. We are growing him out as a 3 year old. Phantom's maternal grand dam, MAIB 0189, was a cow from the Manitoba Wild and has produced many of our best breeding bulls. Phantom was used for breeding as both a spiker and a 2 year old. We already have 2 years of his offspring on the ground and they are some of our most exciting spikers on the farm showing the same style and mass of spiker growth. He is a very calm, quiet bull and has passed that trait along to his offspring.

It has been a pleasure to have a back up bull like Presumptuous. His calves have great body size and antler production. Sons are velvetting in the top 1/3 of our herd. Not bad for back up offspring 2 to 3 weeks behind the rest of the pack. The biggest regret is that he did not see enough cows during his time on our ranch as he was shadowed by Prospect, and many AI sires we have been using. Presumptuous is getting grown out this year and may be marketed. He has improved our velvet weights and we have semen in the bank. \$200/straw collected and stored by Dr. Martin Wenkoff.

Prospect will always be one of our iconic foundation sires. His wide, reasonable typical frame, has produced many typical sons and a few hogs that are non-typical. Might have something to do with the Dam... Prospect has brought in width and added both Velvet weight and inches to the herd. He scored 568 4/8" on his head with his actual spread credit of 64", and 544 1/8" at EXPO with the calculated speed credit. A few Prospect straws will be released in Canada every year so watch for them or book your straws in advance. The only unrestricted semen sales are in the United States. Congratulations to the Foggy Bottom Boy's who brought in a 24lb Prospect son at the 2016 - National Elk Velvet & Hard Antler Showcase that placed 5th. Also take note that Prospect should get an honourable mention on Sandy Hill's 19.80 lb Bull as Prospect is on the Dam side. Sandy Hills Elk also produced a 469 2/8" five year old Prospect son which cut 551LBs at 6 years old. Have a look through the 2016 Bull book for a few of his up and coming sons we have an eye on. Super Mag by Prospect! Super Mag was 395" at two in 2015. This bull is a cross between Prospect and Levi, the great Grande dam is no slouch either as she is sired by Sandy Hills Hok who scored 522". Both Prospect and Levi have great sons proving their ability to pass on. Like other Prospect sons Super Mag's beam flares out adding air between his beams and giving him presence that harvest preserves are looking for. Three generations of well over the 500" club has taken many

years to build and here you can jump to the front of the line if your looking to increase you width, velvet production and raise your scores.
