STRATHLEIGH HISTORY

Strathleigh stud has been in operation since 1946 with the formation of a Hereford stud. 2013 Commences a new era for Strathleigh Stud owned by Anne & Alex Robson. Strathleigh's focus on Black Simmental & Sim Angus Cattle has been ramped up this year following our Hereford Female Dispersal Sale in 2012. The stud has also been relocated from Woolbrook NSW to "Rosevale" Attunga NSW. Strathleigh Black Simmental Stud was formed in 2004 when we AI'd our top Angus Stud cows and imported embryos from the US.

"Many of our clients are reporting excellent results by using Black Simmental and Sim Angus Bulls, producing calves with more muscle and weight"

This year we will offer 41 Black Simmental / Sim Angus bulls by Gateway Lucky Man and Wombramurra Humer. Gateway Lucky Man has been producing outstanding bulls with plenty of size, excellent confirmation and cattle that are easily fattened. We have cows by Gate Lucky Man from an earlier AI program which are top milkers and produce top calves. Wombramurra Hummer, purchased for \$14,000 as equal top priced Black Simmental Bull in Australia at that time, has a large consignment of bulls in the sale. Hummer has produced a top line of bulls that are very uniform displaying plenty of muscle and quality. 2014 will again feature a draft of bulls by Wombramurra Hummer and one of our new sires Lancaster Fortress bought for \$12,000, is also producing top quality calves with excellent temperment.

This sale will also include 13 hereford bulls which will be the last sale of Hereford bulls. Sires include Cootharba Ogilvie, Emu Holes Limited and Parson Hill Elstroem.

Please note:

In the catalogue some of the Black Simmentals are registered with the Angus Society out of registered Angus cows and others are registered with the Simmental Society. Note, Breed plan figures cannot be compared between these two societies.

Our new yards at Rosevale were designed so that there is no need for anyone to go in the pen with the bulls. While the cattle are picked for temperament, cattle can be unpredictable. We recommend only experienced cattle people enter the pens at their own risk. No children to enter the yards with the bulls.
