Date: 15 January 2014

Dear Sir/Madam,

Please find attached details of Essex County Council Minerals and Waste Planning team's new website.

Following the launch of the site on the 11 November we have started to provide details of all new planning applications electronically providing greater freedom about where and how the plans are accessed.

From the beginning of February we will be carrying out all of our consultations about minerals, waste and county council applications electronically. This means that from then your parish/town council will receive notification about planning applications from us via email only.

While we will still accept hard copy responses comments can also be made directly online or submitted by email. Whenever possible this is the method of response that we prefer.

Our records show that kpt1@talktalk.net is your email address. If this is not correct please let us know as soon as possible.

We would appreciate it if you would place the attached information in your local council newsletter and on your website so as many of your residents as possible are made aware.

If you have any questions about using the new website please contact me on the details below.

Yours sincerely

Tim Simpson
Planning Technician
Minerals and Waste Planning
