Introduction

Throughout each county across the nation there are hundreds of families that have been impacted by the drug epidemic. Few have any idea about what is ahead in their journey in living with this disease. They need to learn about what the disease is, how it progresses, what issues will require their involvement and how their lives are likely to change. They also need to understand who is in the community to assist them and what to expect from these services.

Their local community also, does not understand what the family faces and this limits their ability to provide services that directly match the family members needs, at each stage of the disease.

The same is true for our places of faith practices. These organizations want to participate and provide spiritual care, however, they are lacking in the tools and understanding about what it is like to be a family member living with substance use disorders.

As a caring society we need to step back, review what is working, what is not working, what is missing and what is available for the family members. Then we need to educate the family members, their local community, and the places of faith practice.

To do this, we will need a structure and process for implementing a multi-level education strategy into the families and community.

There is no quick fix, the education structure needs to be embedded within the community, implemented by the community and sustained through resources that are local.

It is for this purpose “The Family Solution Finder Learning Centers” has been created and is now available to every community across the nation. To educate the 1. The family members living with substance use disorder, 2. The local community agencies and provider staff, 3. The local places of faith practice. By making the family a center of focus, we will affect the knowledge of those who surround them, which is everyone.

I. About Us

Families Impacted by Opioids, nonprofit, was founded by Mr. Roy P. Poillon, July 2018 for the purpose of educating family members living with substance use disorders. From his past career in developing healthcare delivery business models for alternate site healthcare services and disease management, he is now applying this knowledge to the Substance Use Disorders Industry. There is a gap in several areas which contributes to relapse, poor outcomes and fracturing of the families and their communities. Our program is designed to be one element in filling the gap, nationwide.

A critical area of success has to do with how well the person in recovery is supported by the family members, the community agencies to include the providers, and their places of faith practice. Given, the family members are an important link to sustained recovery, they need access to education about this journey.

What impacts the family, will impact the community the two are inseparable

Historically, families do not come into the community seeking education on this disease. It has a stigma. They typically come out in response to a specific situation, seeking a solution for an issue. There really are no places where an all-inclusive learning series is provided covering the families entire journey. For this reason, they do not have a thorough understanding of what might come next and therefore cannot properly prepare for each next phase.

At the *Family Solution Finder Learning Centers*, we do know what is likely to happen next, we do educate the family member on these key issues, and they will have a plan of action for each issue. They will be empowered with knowledge. And we will do the same for the local community agencies, the providers, and places of faith practices. This way, all the stakeholders are included. This can only be accomplished through a local structure with a process set-up locally to educate and share. It must come from within the community for it to be sustainable.

Helping the family layer their
learning one stone at a time

II. What is “Family Solution Finder Learning Centers”?

The Family Solution Finder Learning Centers (FSFLC), is a place for family members to go and receive education about the “32 key issues” they will likely face living with substance use disorders.

These 5 tools are used in the family journey to address each issue:

1. Family Transformational Response (F.T.R.) Model
2. Family Value Based Decision-Making Model
3. The SUD Journey, It’s Time to get Organized
4. The SUD Journey, It’s Time to get Networked
5. The Family Needs to Meet

These 32 key issues cover the entire family members journey:

1. The family is a system
2. Different roles of the family members
3. Childhood trauma in the family system
4. Different types of family therapy
5. The family support structure in addiction
6. Getting a diagnosis
7. Substance use disorder is a brain disease
8. The disease progresses in stages
9. Relapse is a part of this brain disease journey
10. Enable vs. Consequence
11. The Addiction Behavior
12. Family Intervention
13. Police Intervention
14. Emergency Medical Intervention
15. Legal System, Intervention
16. Treatment Center Intervention
17. Family Community Mapping
18. The Relapse
19. Successful Lifelong Recovery
20. Bereavement
21. Spiritual Faith practices
22. Elements of a Family Plan of Action
23. Roles and Responsibilities in the Family plan of action
24. Getting networked in advance
25. Suicide Prevention
26. Financial Management in the substance Use Disorder Journey
27. Foster Care Services in substance Use Disorder Journey
28. NARCAN
29. Peer to Peer Services
30. Medical Assisted Treatment (M.A.T.)
31. Family Solution Finder Learning

32.Harm Reduction

The Family Solution Finder Learning Centers will provide the ***Family Solution Finder Learning Series Books***. This series of presentation seminars will encompass the 32 key issues, tools for developing responses to these issues, organizing a plan of action for each issue, and finding in advance the providers from their local community who have services to assist them. They will become empowered families.

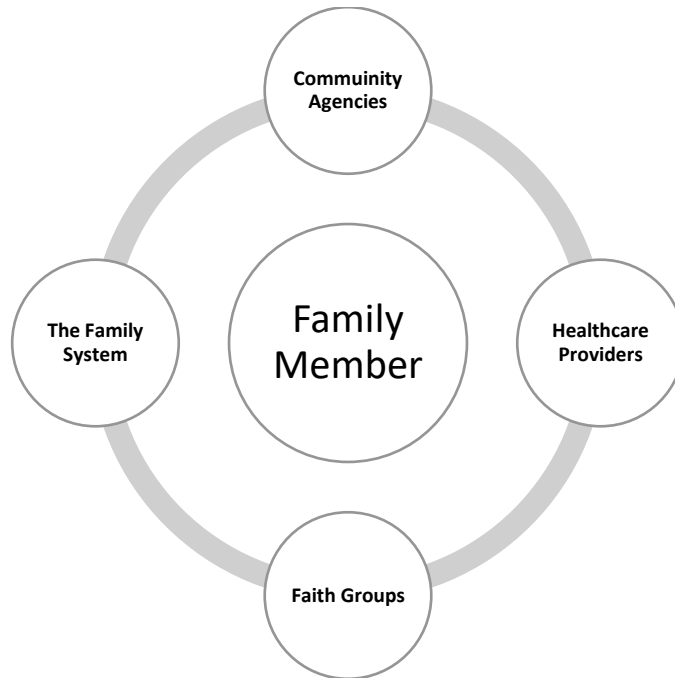

There are 12 core competency issues the *community agencies and providers* need to understand about the family members journey to effectively assist them in sustaining successful recovery support. The Family Solution Finder Learning Centers has a selection of 12 core competency issues in the ***Pathfinder Certificate of Completion Seminars Book***, which they can provide to these local community agencies and providers.

Also, the places of faith practices provide support to family members, through their places of faith practices. A turnkey ministry model: ***Invest in the Family Ministry User Manual and Volunteer Guidebook***, is available from the local Family Solution Finder Learning Centers to assist them in setting up a sustainable Faith & Education ministry.

By setting up Family Solution Finder Learning Centers across each State we can positively impact this disease where it matters most, at the level of the family and their local community. A family is a system and seeks balance, this give them back their balance.

By including the local community agencies, providers, and the places of faith practice, a unified blanket of education will meet the family where ever they go: sports coaches, school guidance counselors, police first responders, mental health centers, emergency room social workers, community agencies, treatment centers, pastors, there are over 13 stakeholders which will be approached by the local *Family Solution Finder Learning Centers*, to receive education about the family members journey. All will learn and all will thrive, together.

In the Family Solution Finder Learning Centers, the “Family Members” become the center of focus, with those who support them also included in the education process for each community.

1. **Family Solution Finder Learning Series:** 32 key issues seminars, study guide, workbooks, and e-Learning online, for family member education.
2. **Pathfinder Certificate of Completion:** 12 core competency issues seminars, for community agencies and providers to know about the family members journey.
3. **Invest in the Family Ministry:** A turnkey model with Ministry User Manual and Volunteer Guide Book, for faith groups to support their families with education and ministry.

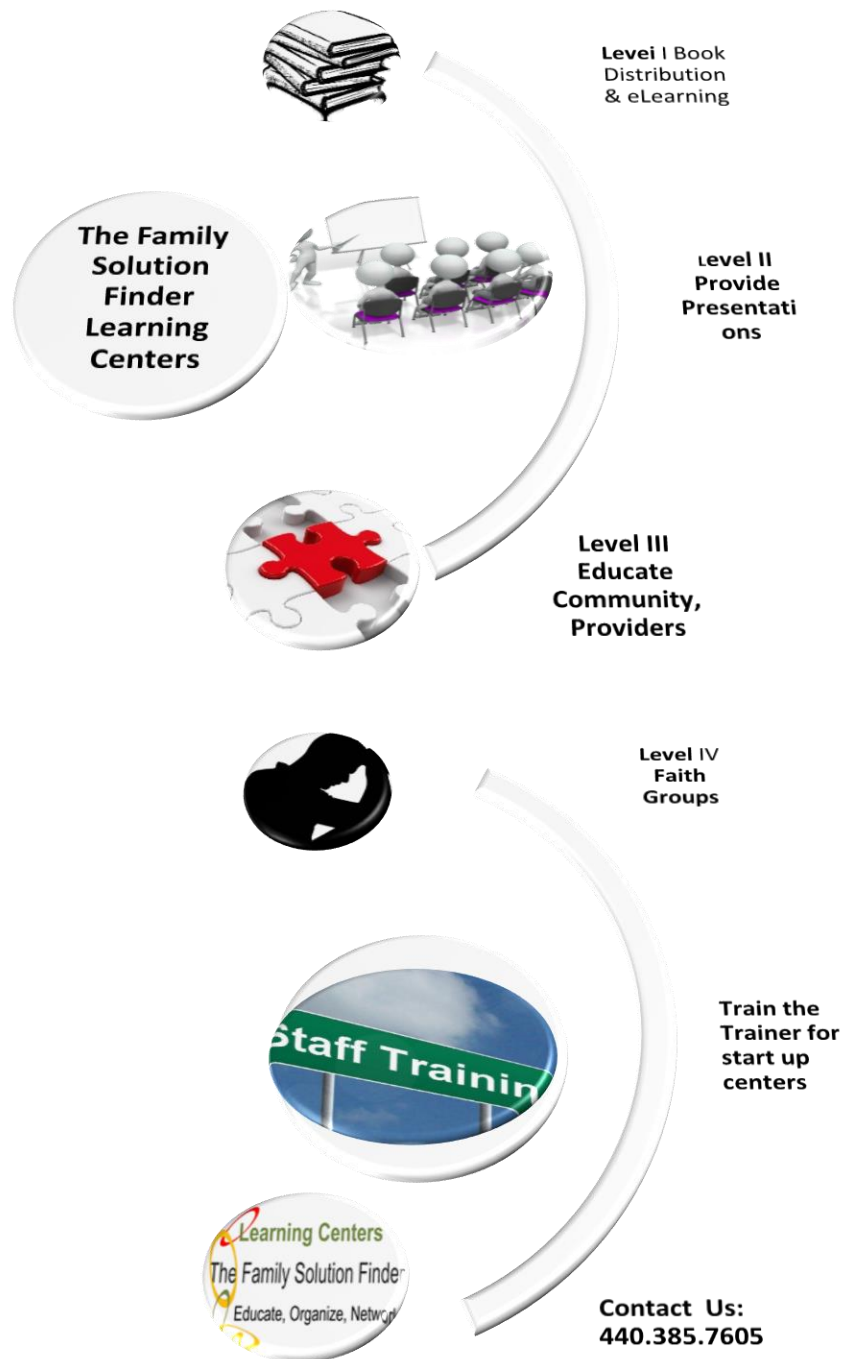

Mission Statement

We seek to educate the family members living with substance use disorders and those who support them in their local community with a Family Solution Finder Learning Centers model. By educating the family, the community agencies, the providers of services and places faith practices we will become all-inclusive in a unified response to the drug epidemic. This disease impacts all of us, therefore all of us need to support the family.

Vision Statement

To provide education resources at the local level for our Ohio communities; Families Impacted by Opioids will visit all 88 counties in the State of Ohio, making introductions to key stakeholders. The selected organizations and individuals will register and be provided the materials needed to start a Family Solution Finder Learning Centers program. We will have 53 learning centers across the State of Ohio in five years, with a range of 60% being Level II. In each enclave of the four enclaves designated for Ohio, within two years there will be not less than 10 Family Solution Finder Learning Centers active with a mix of Levels I and II. Within the first 1.5 years there will be not less than 5 learning centers in each of the 4 enclaves for Ohio. At the start of year 3 we will expand our program to a nationwide exposure. Our goal is to have Family Solution Finder Learning Centers in every state across the country by 2028.

A community as part of the family solution

III. Who can Start a Family Solution Finder Learning Center

Anyone can start up a Family Solution Finder Learning Center. That is the great news about this community focused model. The Family Solution Finder Learning Center is designed so that it does not require a presenter to have prior knowledge of the topic, and the 32 seminars are self-administrated with power point slide each with voice over narrator. Also, all the handouts and practical exercise are included. So, whatever topic is determined to be most useful, this becomes the topic to present.

Examples of Who Can Set-up a Family Solution Finder Learning Center:

- ***Treatment Centers:*** can provide these seminars as a service to the family members of those they are treating, past, present and future. This can be a strong tool for community awareness of their treatment facility services and other programs, too.
- ***Mental Health Centers:*** As **Individual Practice or in a Center,** can provide selected seminars, at a set location and schedule.
- ***Libraries:*** Lending the books.
- ***Support Groups:*** small or large family members support group can use this in their meetings.
- ***Police and First Responder Teams:*** can present these programs and distribute the books with eLearning program as part of their “Community Engagement” drug awareness programs.
- ***Churches and places of Faith Practices:*** can use this as a part of their ministry meeting plan. “Invest in the Family Ministry User Manual.
- ***Coaches for sport teams:*** can distribute the Pathfinder Certificate of Completion Seminar book to families.
- ***Social Workers:*** 1. At schools Guidance Counselor offices, 2. In Emergency Rooms, 3. At Government Agencies.
- ***Drug Courts:*** can require the family members to complete the Pathfinder Certificate of Completion Seminar book.

IV. How to set up a Family Solution Finder Learning Centers

We suggest an assessment of your interest and motive be your first step. Our question to you is “Why would you want to provide The Family Solution Finder Learning Centers”. Please answer this before we answer how to set one up. From your answer comes a better idea as to what Level I-IV of learning center best matches your interest. There are four levels of The Family Learning Centers to consider, each works with a different segment of your local community.

Four Levels of The Family Solution Finder Learning Centers:

Level One: In this level you will provide the *Pathfinder Certificate of Completion Seminar* book to your past, present and future clients. Also, these books can be used in distributing to your referral sources for their staff education. If you are an organization, this can be used in an employee “Lunch and Learn” session.

The Pathfinder Certificate of Completion Seminar can be given to the family directly, as an introduction to the larger 32 seminars found in The Family Solution Finder Study Guidebook and Workbook.

E-Learning can also be offered by your organization when distributing this book.

Level Two: In this level you will provide learning seminars at your location. The Family Solution Finder Learning Series Study Guide and Workbook will be provided and used in these sessions. This level will also include Level One.

Level Three: In this level you will provide learning seminars to other organizations using the *Pathfinder Certificate of Completion Seminars* at their location. This level will also include Levels One & Two.

Level Four: In this level you will meet with churches and places of Faith Practices within your community to introduce the “Invest in the Family Ministry” using the Set-Up Guide and Volunteer Manual Book. This level will also include Levels One, Two & Three. You can choose the type of support best matches their needs.

Please choose which program best matches your level of interest and contact us. We will walk you through the simple steps towards registering. You can be up and running within a week.

V. Operating a Family Solution Finder Learning Centers

a. Required Registration:

We are asking you to register on www.familiesimpactedbyopioids.com in order that we can provide updates to content, support to your organizations learning center and allow others to find you in their community. These materials can be copied with permission for the purposes of marketing and training. All these materials are available as free downloads on our website.

It may be best to start one level down from where you want to be, in order to get comfortable with the material, its set up and functioning of these seminars. We recommend most organizations start at Level One, *Book Distribution, and e-learning*. Then move into Level Two. Take time to invite the public as a community relations initiative.

b. Use the books:

Our books help to drive the learning experience, but your presentation and presence is what will matter even more to these family members. The operation for The Family Solution Finder Learning Centers is the same as any other scheduled list of seminars you may have provided in the past. There is nothing specific or special steps needed for the center itself, other than making people aware of your sessions.

E-Learning,

Distance learning allows the family in the comfort of their home to take all 32 key seminars online.

RESOURCES:

There are sites on the internet which provide good content to support learning and instruction. Here are a few worth looking through:

1. www.samhsa.org
2. www.adaa.org
3. www.drugfree.org
4. www.psychologytoday.org
5. www.Relink.org
6. www.drughelp.cares
7. www.nichq.org
8. www.apa.org
9. www.drugabuse.gov
10. www.nacoa.org

Download From our website

1. Power Point Presentations, with narrator for each slide.
2. Practice exercises.
3. Handouts.
4. Family Organizer.
5. Family Provider Network Resource Directory.

Each of the 32 Issues has a power point presentation, where each slide has an audio speaker presenting the slide. In the presentation are several video links to professional content used to refine the topic (internet access required). This makes providing a seminar as easy as ordering the books and turning on the projector.

The presentation also has seminar handouts PDF, practical exercises and video worksheet PDF, and Plan of Action worksheet PDF. You are fully supported to offer a turnkey presentation for each of the 32 issues, from which the community will be better serviced by your organization. www.familiesimpactedbyopioids.com

c. Room set-up:

This can be in whatever design you choose. We recommend circle tables because it helps to facilitate conversation and sharing between family members.

d. Audio/Visual:

Be sure to have access and internet WIFI for the extended learning videos included in these seminars. Laptop, speakers, and TV or screen are needed.

e. Meeting Agenda:

It is helpful to have the next meeting's agenda as a handout in each meeting. Also, keep a calendar updated as to time, topic, location and point of contact on a page in your organization's website.

f. Which issue to present:

Some choose to start with Seminar #1 and proceed as it is numerically set up. Others ask their attendees, which topics they want to view. In either case, it is helpful for the attendee and the presenter if a schedule is set up going out six months.

g. Duration:

- It is more effective to have one single topic (issue) in a meeting. Try not to mix one subject with another in the same meeting. For example, don't mix seminar # 1 The Family is a System with Seminar # 2 The Different Roles Family Members Play.
- There should be 40 minutes for slides and video's, 20 minutes for practical exercises, 20 minutes for group discussion. Duration: 1.5hrs/seminar.
- The video sessions are more valuable when there is a discussion to follow, so others can glean important points from the person next to them. **And again, circle tables work best.**

The Family Solution Finder Learning System:

The family solution finder learning series can be presented as a “Learning System” where an entire month is dedicated to a single issue (topic).

Issue of the Month:

You might want to select an issue as the “*Topic of the Month*”. Where, the family solution finder learning series seminar (issue) is presented:

In the first week, using the Family Solution Finder Learning Series of four books and power point presentation materials provided as a download from our website.

In the second week, a speaker from the community is invited to speak on this topic.

In the third week, a personal testimony is presented on this same topic from that person’s experience perspective of dealing with this issue.

In a fourth week, a general discussion covering how to use the lessons learned this month, using the It’s Time to Get Organized and It’s Time to Get Networked workbooks.

This learning system provides four sessions for each topic.

In total meetings: 32 seminars x 4 sessions per topic equals 128 sessions. It will cover 2.6 years of meeting content.

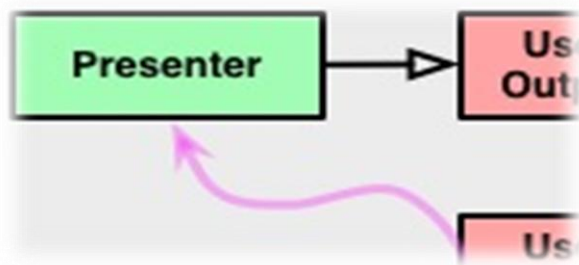

Because this is a lifelong journey it will take time to cover all the topics. Then again, where else can these families go to learn in this deep of a review? If the family has an urgent need to review a specific issue seminar, they can do so online through our website in the self-directed eLearning model.

The entire Family solution Finder Learning Series is on our website as a free download for each seminar. A community seminar presenter will find all the materials needed to provide their learning session.

The family members can choose a topic (issue) to learn by selecting from one of the 32 key issues available in the following download formats:

- 1. Study Guide*
- 2. Workbook*
- 3. Power Point Presentation with slide voice narrator and embedded video links for extend learning.*
- 4. Practical Exercises*
- 5. Solution Finder Exercise Worksheet*
- 6. Value Based Family Decision Making Model Worksheet*
- 7. Family Plan of Action Worksheet*
- 8. Local Community Networking Worksheet*
- 9. Clinical Paper for each key issue*

A trained presenter is an invaluable asset to your organization. This person has the forum to educate, direct next steps, influence the quality of family decision making, inform, relate, and demonstrate empathy all as it is in line with your organization goals and objectives.

Family Solution Finder Learning Centers, Levels II-IV.

Such presentations will

1. Presenting the Family Solution Finder Learning Services will create a differentiating awareness in decision makers, those who make referrals and in the community as a brand attribute to your services.
2. Increase the acceptance of family members by your staff, because they received this training and have a better appreciation of what family members are experiencing.
3. The community will recognize your organization and being valued added, past just the services you provide.
4. Your inclusion of this type program will likely increase your grant writing proposal positions.
5. This may have future grant approval contributions for preventative, faith practices support or community education grants.

Multi-level learning channels for family member learning

We have included the different mediums for learning into the structure of a Family Solution Finder Learning Centers so that the Process for learning from the Family Solution Finder Learning Series has a stronger foundation for real life application.

These mediums for learning include:

1. Written Text learning.
2. Video learning.
3. Presentation learning.
4. Reverse demonstration (where attendee demonstrate back their level of understanding).

Using the theory of change in structuring family learning, 5 steps to change:

To ensure the family member is presented this learning series in a constructive structure, the process for learning follows the therapy methodology of the theories of change. Because, what we are asking of the family member is that they change their way of thinking to include this new level of learning.

1. **Precontemplation**, The Study Guide introduces the issue (Subject). Each Subject (issue) has three learning objectives. This creates problem awareness a critical part of motivational interviewing steps.
2. **Contemplation**, The Workbook introduces the Subject learning objectives in Practical Exercises with video enhanced learning of the subject. The structure of workbook, power point presentation and individual reverse demonstration in the practical exercise is our process.
3. **Preparation**, The It's Time to Get Organized workbook introduces the family skill tools for creating a solution using the Family Transformation Response (F.T.R.) model, this breaks down an issue into finding a solution. And the Value Based Family Decision Making Model for the family to determine how they will respond to the issue.
4. **Action**, The It's Time to Get Organized workbook has a final step, creating a family plan of action around all the steps taken above. This is a plan with To-Do list, family member assignments for taking the next steps in addressing the issue.
5. **Maintenance**, The It's Time to Get Networked workbook has a worksheet for each of the 32 issues to build a local provider network. This network workbook becomes their Family Provider Network Directory. Here is where they will take all the above work, meet with a profession service provider, and determine how they will assist the family in meeting their needs.

A. Train the Seminar Presenter and The Family Solution Finder Learning Centers Manager

In the learning center startup the Seminar Presenter and Learning Center Manager will have questions about their roles and responsibilities for those who will be implementing this initiative. To support your organization in this endeavor, Families Impacted by Opioids provides a Train the Trainer type session of 1hr for each role. This agenda covers a selection of needed instruction in how to find, download, purchase and present the material for a Family Solution Finder Learning Center.

For the person managing a Family Solution Finder Learning Centers, we provide needed instruction in how to manage the learning center operations, support the presenter, build awareness and marketing of the events, and manage a budget for purchasing materials and marketing.

A www.zoom.com session is held to provide your team training as needed. This allows for participation at any site location.

B. Educate the Family Member

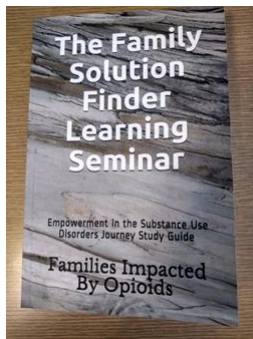

The Family Solution Finder Learning Series: 32 Seminars, Study Guidebook & Workbook, It's Time to Get Organized workbook, It's Time to Get Networked workbook (family study curriculum)

The Family Solution Finder Learning Series consist of:

- The Family Solution Finder Study Guide
- The Family Solution Finder Workbook
- The Substance Use Disorders, It's Time to Get Organized workbook
- The Substance Use Disorders, It's Time to Get Networked workbook
- On-Line eLearning for all 32 Key Issue Seminars

1

The Family Solution Finder Study Guidebook: (Primary learning center book)

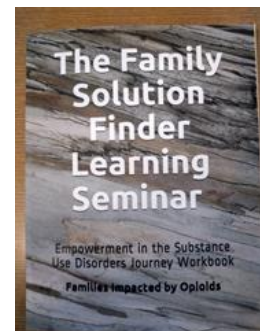

This book introduces the issue as a topic of learning. The topic is presented as to the top issues that a reader needs to understand about the issue. Then the following chapters develop how the issue impacts a family and identifies some of the parts to the issue that when broken down into pieces becomes clearer in how to create a solution in responding to this issue. There are 32 issues in this Study Guidebook each are likely to present in a family's journey with substance use disorder and each can be known and prepared for in advance. All four category levels (I-IV) of the Family Solution Finder Learning Centers use this book.

2

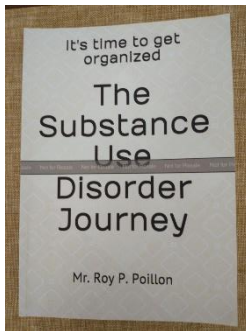

The Family Solution Finder Workbook: (Primary learning center book)

This book has practical exercises, extended video links and work sheets for each video. The issue is aligned with the same issue provided in the Family Solution Finder Study Guidebook. A family member will first read the issue in the study guidebook, then take the practical exercise, watch the video and complete the video work sheet in the Family Solution Finder Workbook. There are 32 issues in this workbook each are likely to present in a family's journey with substance use disorder and each can be known and prepared for in advance. All four Family Solution Finder Learning Centers use this book.

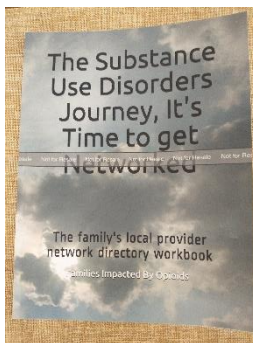

3

These two books are used as tools for the family to assemble what they have learning and use it in their real-life situations. These are workbooks.

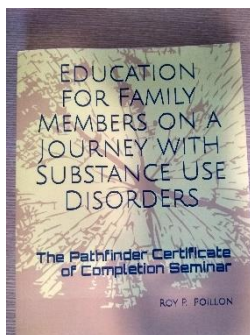

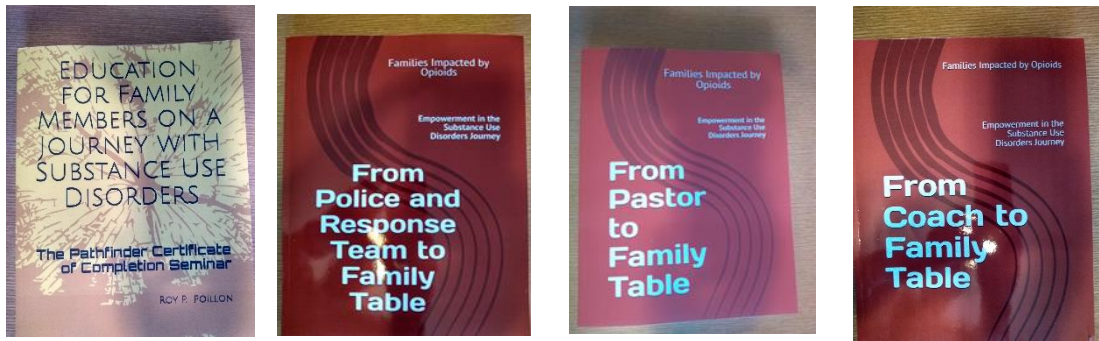

The Substance Use Disorder Journey, It's Time to Get Organized workbook is used to organize the learning of the family members. First the family will complete the Family Transformational Response (F.T.R.) model, to find the solution to the issue. Next the family use the Value Based Family Decision Making Model to determine how the family will respond. Then create a Family Plan of Action to implement their decision based on their solution.

The Substance Use Disorder Journey, It's Time to Get Networked workbook is used to identify what services and professional in the local community are best positioned to assist the family in completing their plan of action. This workbook becomes the Family Provider Directory. It is set up in advance of needing these resources.

To order any of these books: Go on-line to www.amazon.com search Roy Poillon.

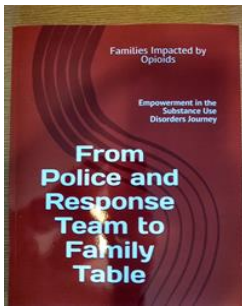

C. Educate the Local Community and Providers

“The Pathfinder Certificate of Completion Seminar” books can be used as a marketing tool:

This book is used in developing clinical and non-clinical support staff to increase their awareness of the “Family Members living with Substance Use Disorders Journey”. Also, this is a great book to offer those who refer clients to your organization’s services. These 12 key issues provided a core competence for the community organization and provider staff, providing strength in their daily lives serving the needs of these family members. The contents of this book is The Pathfinder Certificate of Completion Seminar and the 12 issues are pulled from the 32 issues found in the Family Solution Finder Learning Seminars books. This book can be given to your organizations staff, other organization’s staff members and the Family members. All audiences will benefit from taking these seminars. Your organizations contact information can be placed inside. All four category levels (I-IV) of the Family Solution Finder Learning Centers use this book.

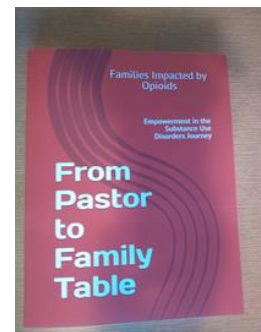

From Police and Response Team to Family Table, can be used as a marketing tool:

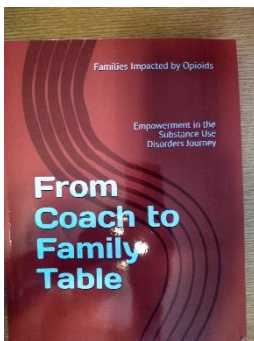

This book is used by your organization, to give to your local police and first responder teams, for them to give to the family members during or after an intervention with a family that they have identified as experiencing the impact of substance use disorders. The police and first responders can also use it to train their own staff members on the family's whole journey with this epidemic. It gives our first responders a community engagement resource for caring for the family members as well as the individual. Your organizations contact information can be placed inside. All four Family Solution Finder Learning Center Category Levels (I-IV) use this book

From Pastor to Family Table, can be used as a marketing tool:

This book is offered to the Pastor and Ministry Leaders of a faith organization to give to the family members within their church who are on a journey with substance use disorders. Often, Family members especially mothers will seek advice from a minister or priest. This book can be given by the Pastor as an act of kindness and caring for the family. Your organizations contact information can be placed inside. All four Family Solution Finder Learning Center Category Levels (I-IV) use this book

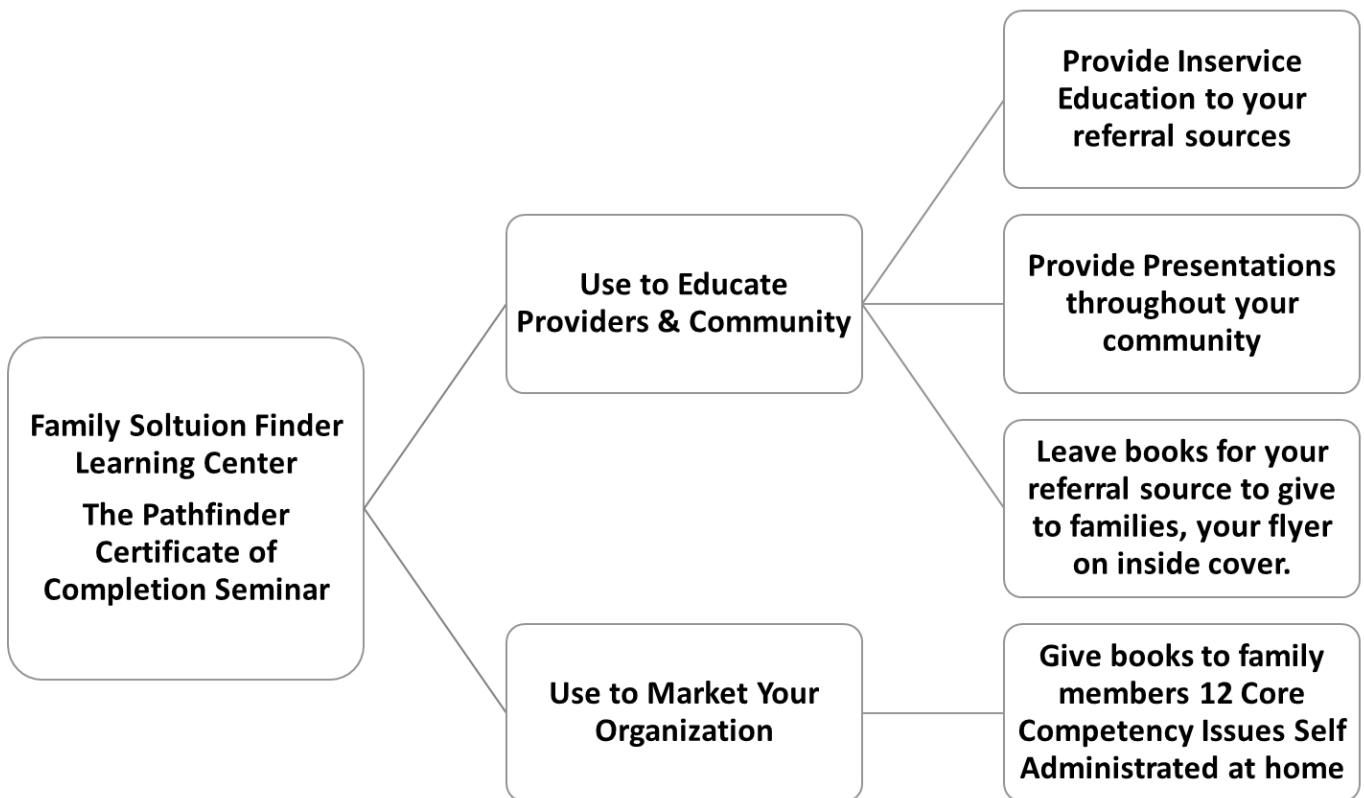

From Coach to Family Table:

This book is offered to the sports coaches to give to a player when they identify a family who is going through a journey with substance use disorders. In many communities our coaches are looked up to for their advice and guidance. They are on the front line of our families (children) and will be able to pass this book through a player to the family members. This will empower coaches to have a way of contributing to the value of our community by being an asset towards empowering our families. Your organizations contact information can be placed inside. All four category levels (I-IV) of the Family Solution Finder Learning Centers use this book.

The Pathfinder Certificate of Completion Seminar Book, *has a dual purpose:*

1. Educate the community agencies and provider staff in local service organizations
2. Market your services and build brand awareness of your organization.

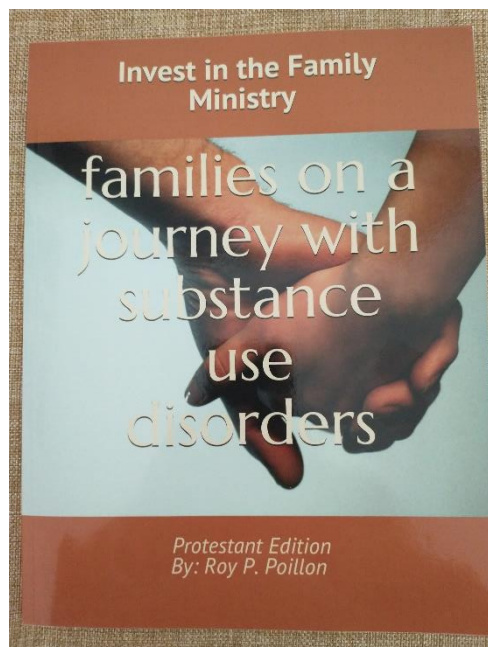

The Stakeholders in our communities include: (but not limited to)

1. Treatment Center Facilities
2. Mental Health Center Facilities
3. Sports Coaches
4. Emergency Room Social Workers
5. School Guide Counselors
6. Pastors, Leaders of Faith Organizations
7. Police and First responders
8. Legal Court System
9. Foster Care Services
10. Jobs and Family Services
11. Employers
12. Community Support Agencies
13. Healthcare Providers

These stakeholders will benefit in providing their services and programs when they more completely understand the journey a family member takes living with substance use disorders.

D. Support the Places of Faith Practice ministry a Substance Use Disorder Ministry Model

This is a turnkey model for starting a ministry at your place of faith practice for family's members living with substance use disorders. The User Manual and Volunteer Guidebook provides three programs, the education program for the family is 32 sessions covering the entire journey of the family members, the SP~ARK's Program which assist the individual family member in determining their level of faith practice and the M.O.R.E.S. Program for setting up a local community directory for these family's based on the 32 known issues they are likely to face. All this is provided in the "Invest in the Family Ministry". Also, all support materials are ready to use and online (free) as downloads. A Catholic Edition is also available.

The Families Impacted by Opioids staff will provide On-line training for your leadership core team. Call Us: 440.385.7605.

E. How to register a Family Solution Finder Learning Center?

To register your Family Solution Finder Learning Centers, you can visit our on-line registration form:

<https://familiesimpactedbyopioids.com/registering-as-a-family-solution-finder-learning-center>

Or call us: 440.385.7605 Cleveland, Ohio

Benefits:

- By registering your learning center, you will receive:
- FSFLC Newsletter
- FSFLC Discounts
- FSFLC Private Group Learning Center Leaders Facebook Page for shared insights
- FSFLC Locator on our website.
- FSFLC will be promoted in your state.
- Update training Materials forwarded upon release to your location.

F. How to Order Books and a “Train the Trainer” online webinar

Book Ordering:

Go to www.amazon.com and type into the search field the title to the book.

Or

Contact us for a volume book order:

- By the Case 20 books/case.
- Send an order form, we will send you an invoice and confirm with invoice call before processing the order. The quantity ordered will be shipped your shipping address. We order your books from the publisher and your order is shipped directly to your location from their location.

To set up a “Train the Trainer” online session,

Call: 440.385.7605 Cleveland, Ohio.

Train the Presenter, session

Train the Learning Center Manager, session.

- Send check to our office.
- We notify you to an agreed upon date and time.
- As many can join as is needed.
- Duration 1 hr.
- Agenda and material are sent in advance as PDF documents as well as Power Point Presentation for future training at your location.

G. How to use the On-Line eLearning program

Our online learning is simple.

Go to our website: <https://familiesimpactedbyopioids.com/32-key-issues-learning-series-and-e-learning>

Follow the directions at the top of page. Scroll down and hit each button for downloads.

Each seminar has:

- ✓ Seminar Study Guide and Workbook Handout
- ✓ Power Point Presentation with slide Audio (self-administrated)
- ✓ Practical Exercises and Video Worksheets
- ✓ Responding to Family Issues Process
- ✓ Monthly Meeting Agenda
- ✓ Clinical Paper Handout

This can be used for group presentations, individual and family at home study. It is self-administrated and no prior knowledge or experience is required.

CONCLUSION

We need to have a strategy, ours is one of many possible choices. We need to have a local structure. Ours is ready to start with those who are already serving their community. We need to have a process to deliver the education. Our has both Text, Video and Presenter with seminar content ready to use. The next step is yours. Contact us and let's get started.
