ScalaTexture™

Whether it be at home or in the office, some spaces crave natural light yet still demand a level of privacy. ScalaTexture™ is the cost-effective option when lighting up a room and adds a textural elegance without sacrificing the privacy you desire.

Select from a range of textures that dramatically change the aesthetic of a setting; from modern facades to old-world interiors, design the look that is perfect for your space with ScalaTexture™.

Creating private and illuminated spaces.

By diffusing light entering a space, ScalaTexture™ transfers the very best qualities of natural light whilst blocking out onlookers.

Providing degrees of privacy, whether high, partial or low obscuration, ScalaTexture™ achieves the perfect balance of privacy and illumination.
An illuminating idea.

ScalaTexture™ offers a low-cost decorative touch with a range of styles and visual effects to suit any setting. Whether a textural addition to a restaurant or bar, privacy-giving partitions for a workspace or decorative showerscreens or windows for the home, ScalaTexture™ has an option ideal for your design.

Choose from a range of textured or wired patterns, in clear or a grey tint, to achieve the perfect aesthetic without sacrificing privacy and natural light.

Consistency, safety and durability.

ScalaTexture™ is manufactured by passing a continuous molten glass ribbon between two rollers, one of which has a pattern that creates a permanent impression, achieving a consistent finish and high level of durability.

As well as being easy to clean and scratch resistant, ScalaTexture™ can be toughened or laminated to meet Grade A Safety Glass standards (AS/NZS2208).

Glue Chip   Satinlite   Spotswood   Dark Grey

Polished Wire N   Squarelite   Cathlite
