

Once upon a time way back in the 20th Century Debbie Elliff from Broadstairs Kent:

1977 Qualified as a NNEB Nursery Nurse that included a Nanny Training at West Kent College Royal Tunbridge Wells.

Until 1985 for 8 years I loved gaining work through a Chelsea Nanny Agency as a live in and daily Nanny in London (Chelsea, Harrow, Kensington and Hampstead) and also Surrey, Berkshire, Kent, Canada, France, Istanbul and Spain.

1979 With just one Kent Nanny Agency Consultus who I also worked for I viewed offices in Canterbury to run a Nanny Agency.

1983 To achieve my Nanny Employment Agency License I saved for 2 years by working a 7 day week as Nanny, Babysat 3 nights and weekends worked in Chelsea as a morning cleaner.

Then Saturday, Bank Holiday and Boxing Day afternoons ran until 1989 Tottenham Hotspur Football Club in the players' lounge a Creche for their Children and from 1985 supplied Nursery Nurses.

Mrs Glen Hoddle asked me to move to Monte Carlo to be their live-in Children's Nanny - but I could not leave my own Little Masters and Misses.

1984 I was government interviewed for a Nanny Employment Agency license

Debbie's hobby 1984 up until today 2019 outside of business is Magic

For 15 years I was a Magician's Assistant to Hector the son of Chung Ling Soo a world-famous Victorian Bullet Catch Magician who was a friend of Houdini. Me on stage with Hector (MIMC) at the Magic Circle.

I have helped Children learn tricks and taken to the Magic Circle.

My Magician and Pearly King friend for 30 years Larry Barnes (MIMC) drew this fun Baby in a Top Hat for me.

I shall end this chapter to mention my wonderful mum

My mum Rita was a huge inspiration to me, she was England's 1st woman insurance agency in the 1970`s. My mum drove a huge van with donated office furniture and painted pink my shop. Weekly my mum offered gentle words of encouragement and practical support. I miss the Broadstairs gypsy tart and her lovely homemade chutney would bring to Croydon. I treasure this mother and Child card she gave me.
