

Policy #3/2010 – Dust Control

Purpose: To establish a policy respecting the use of dust control within the RM of Moose Creek No. 33.

1. Dust Control is the responsibility of the rate payer, and as such the Rural Municipality of Moose Creek No. 33 does not provide dust control.
2. If a rate payer wishes to use dust control, they must first submit a request for approval to council. The request must include location and product being used.
3. Once council has reviewed the request, a letter will be sent to the rate payer with the decision and conditions of council.
4. The rate payer must have approval of council to apply dust control product on RM roads.
