Common Prescriptive Dressing Formulary

The following represent some of the most commonly ordered prescriptive dressing supplies. As much as possible generic terminology is used and examples are provided. Most supplies are available per box as well as individual- which is very helpful for those that are more expensive and used less frequently. We suggest for the less frequently ordered to only keep 1 or 2 in stock depending on your supplier delivery response time.

Never hesitate to call to discuss alternatives or substitution.

Always provide a full set of ordered dressing supplies and leave on premises for PRN dressing changes and document Caregiver education. Specific antibiotic Rx will be faxed to pharmacy by Provider. This is by no means comprehensive but the most frequently ordered.

Most Common---

Non-Stick/Nonadherent is also known as Non-Woven Dressing example Telfa,
Curity Non-Woven All-Purpose Sponge

Bordergauze (multiple brands check for waterproofing)

Composite Non-Foam dressing example Island Barrier Dressing, Alldress

Mefix tape: Great to secure borders when needing to cut dressings to limit contact with intact skin and avoid excessive overlay.

Non-Alcohol Skin Barrier Pads example Sureprep No-Sting (Medline) StingFree

Alcohol free liquid skin prep & Shield (DermaRite)

(Plain) Calcium Alginate (multiple brands)

Silver Calcium Alginate (multiple brands—check for “Silver” or “Ag” example

McKesson Calcium Alginate with antimicrobial silver or Maxorb Extra Ag (very good for heavy drainage/bacterial load) Medline

Tegaderm AG mesh dressing with silver

Transparent Film (Plain Tegaderm)

Plain gauze strips

Iodoform gauze strips

Normal Saline wound wash NO PRESERVATIVES or plain NSS and syringes (for wound irrigation) No chemical wound wash please.

Plain Gauze Wrap No Compression example Kerlix

Limit Stock on Hand, if needed can start then order more:

Tenderwet (cavitary necrotic wounds)

Puracol Plus AG

Mesalt (Mesalt Sodium Chloride) Medline. Vitality

Silvercel (high-guluronic acid alginate with carboxymethylcellulose and silver nylon)

Acticoat 3

Iodoflex pads

Iodosorb gel

Silvasorb gel

Note: Rarely ever use Foam Dressings, & never compress unless cleared by ABI/Vascular studies.
