

FIZZING LEMONADE

SIMPLE SCIENCE FOR KIDS

FIZZY LEMONADE SCIENCE PROJECT

YOU WILL NEED:

Lemons
Sugar
Baking Soda

FIZZY LEMONADE PROCESS

First, you will need to boil a couple of cups of water on the stove. Adult supervision needed! Next, add two tablespoons of sugar per glass of lemonade and stir to dissolve.

Let the mixture cool once the sugar dissolves

Squeeze the lemon juice into the cup (it takes about one lemon per glass).

Get your glasses ready!

Next, add the sugar water to the glass. Now for the fun

When *Life* Gives you lemons,
Make lemonade!

Questions....

Can they see the fizz?
How about feeling the fizz?
Listen quietly for the sound for the fizz?
Smell the lemons!
What does the fizzy lemonade taste like?
