

DORICA SUPREME MAIOLICA IDRA

PELLET THERMOSTOVE

Pellet thermostove Dorica® Supreme maiolica idra, column of fire, classically shaped by the power of the raw materials, black glass and majolica. The innovative sliding top access to the fuel tank enhances its many other attractive features. The Dorica® designed collection enhances itself with the entry of a new idra version. If you would like to heat domestic environment through a pellet-heating generator, it provides the ideal solution and it becomes the core of the system. The PELLETPOWER® innovative patented burner maintains the correct rate of oxygen keeping the efficiency of combustion stable for longer periods: keeping the burner clean means reducing cleaning times and fuel costs, and payback initial heating-generator costs over few years
