

# WHITEPAPER 2020-2021

An Asset-Backed Cryptocurrency Issued by  
The Formula Green Foundation for Humanity

STRICTLY CONFIDENTIAL  
FOR INTENDED RECIPIENTS ONLY

Website: [www.formulagreencorporation.com](http://www.formulagreencorporation.com)  
email: [inquiries@formulagreencorporation.com](mailto:inquiries@formulagreencorporation.com)

## DISCLAIMER

**Important.** This document contains sensitive, confidential and privileged information. The information provided herewith is highly confidential in nature, contains proprietary information, and is intended for specific persons solely for discussion and illustrative purposes. No confidentiality or privilege is waived or lost by any unintended discovery or receipt. The terms mentioned are preliminary terms and subject to potentially substantial change.

This material was produced and distributed by the issuer, the Formula Green Corporation (FGC) in partnership with the Formula Green Foundation (FGF) and the Official Maharlika Association (OMA) based in Europe, and/or its affiliates with information regarding its projects in alternative energy and asset-backed cryptocurrency. Information and opinions contained herein have been compiled or arrived at by FGC solely for your information, and, accordingly, neither FGC & FGF nor its affiliates accept liability for any loss arising from the use thereof or makes any representation or warrants, express or implied, as to its accuracy or completeness.

This document is not to be relied upon as such or used in substitution for the exercise of independent judgment.

Certain statements contained in this document may constitute forward-looking statements or speak to future events or plans. Such forward-looking statements or information involve known and unknown risks and uncertainties, which may cause actual events to differ materially. No reliance should be placed on any such forward-looking statements or information.

Any opinions expressed herein reflect a judgment at the date of publication, are preliminary in nature and are subject to change. FGC and its affiliates may have issued, or may issue, other documents that are inconsistent with, and reach different conclusions from, the information presented herein. Such documents reflect the different assumptions, views, and analytical methods of the individuals who prepared them.

Nothing in these materials shall constitute advice or a recommendation by FGC and its affiliates. Nothing contained herein shall constitute an offer, a solicitation of an offer, or any advice or recommendation to conclude any transaction or any commitment on the part of FGC to do so. Any indicative price quotations, disclosure materials, or analyses provided to you in connection therewith have been prepared on assumptions and parameters that reflect good faith determinations by FGC but do not constitute advice by us.

The subject matter of this document is governed by applicable law. Specifically, the direct sale of its asset-backed cryptocurrency (the MHLK-IRM crypto / coin), from the Formula Green Corporation / Formula Green Foundation and/or its affiliates, is prohibited in the following countries: Philippines, United States, China, and any other country where prohibited.

*Note : We are NOT an Initial Coin Offering (ICO). We are the world's first wealth distribution platform to create a next generation currency for the people and by the people.*

## Key Statement

We have created “The Next Currency” advocating a “Resource Based Economy” for Humanity. We aim to decentralize the world’s most basic resources, starting with an energy resource that will power the planet and ensure the success of space exploration and travel. A currency for the people and by the people.

We thank one of the largest philanthropic funds in the world, the European-based Maharlika Trust, for its support as we set out to achieve our mission as the world’s first wealth distribution program.

## Abstract

The Formula Green Foundation (FGF) is a Swiss-based entity responsible for the global implementation of the philanthropic and humanity driven programs of the Formula Green Corporation (FGC), a Monaco-based renewable energy company with a logistics arm in Manila, Philippines. FGC has established research and development programs in alliance with UK and US-based academic institutions. The Foundation takes a strict non-political approach to its advocacy. The FGF is not affiliated with the “MHLK Foundation”.

In partnership with the Maharlika Trust, the FGC & FGF have launched the Maharlika Crypto / Coin (MHLK-IRM), an asset-backed cryptocurrency created in order to bring assets and resources together, advocating a Resource Based Economy for humanity and for world peace. The Maharlika Trust, one of the world’s largest philanthropic funds, has pledged its global assets and resources to the Foundation to drive this initiative.

This white paper outlines the vision, roadmap, and deployment of FGC & FGF’s initiatives and the use of blockchain/cryptocurrency to execute and meet its objectives.

## Introduction

The main advocacy of the Formula Green Foundation is to fully develop a “Resource Based Economy” as a means for achieving world peace. The Foundation believes that there should be sharing of the most critical resources for humanity such as water, energy, food, shelter, livelihood and even the best of human capital with all countries.

In order to achieve this, the old economic models of the past must change. The world is changing much faster than we can imagine. The pace is so rapid and ambitious that it is becoming increasingly difficult for the old management mechanisms to keep societal and economic processes under control. Governments, corporations, and other forms of centralized organization along with their rules, regulations, and barriers will no longer work simply because they restrict movement, activities, and freedoms. They have also become obsolete due to corruption at all levels of society creating wealth for only the upper 1% of the global population.

More and more people want to play a role in managing and protecting basic resources around the globe. This advocacy of “decentralization,” which the world is quickly moving towards, is starting with the advent of blockchain and cryptocurrencies. Through the years, technology has constantly changed where solutions to common problems were addressed through its own form of decentralization.

The Formula Green Foundation has taken this major step to address the basic needs of humanity . The Foundation is not only taking steps to secure our future but to provide solutions to ensure that these platforms benefit humanity as a whole.

## The Transition

The vision of the Formula Green Foundation (FGF) is driven by three key building blocks to create “The Next Currency – the MHLK-IRM crypto.”

### The Maharlika Trust

The second largest philanthropic fund in the world, the Maharlika Trust – our key patron, has pledged its global assets and resources to support the initiatives of the Formula Green Corporation and its Foundation. This includes the largest source of the raw material of fusion energy, which will be used as rocket fuel, together with precious metals and proprietary nanotechnology to extract it from the deep sea. The Maharlika Trust also has a movement of 10 million followers (Official Maharlika Association – OMA) who hold the coin.

### The Formula Green Corporation & the Formula Green Foundation

Our business is fusion energy and space fuel to power humanity. Our initiatives are driven by an international teams from the Philippines, Singapore, Japan, Turkey, Russia, the United Kingdom, and Silicon Valley, CA. The team draws upon extensive experience in the fields of fusion energy, astrophysics, financial technology, corporate finance, wealth management, nanotechnology and especially, Artificial Intelligence.

### The Future

Protecting the identity of humanity and to achieve world peace requires integrating world resources through one decentralized currency.

### What is a “Shared or Resource Based Economy?”

Inspired by the “Resource Based Economy” concept, where all resources are declared as the common heritage of all Earth’s inhabitants, advocated by the late American futurist and United Nations awardee Jacques Fresco, the Foundation is focused on creating a global sharing economy by developing programs to provide every human its basic needs: energy, water, food, shelter, and livelihood.

### Global Action against Climate Change

Formula Green is poised to take a lead role against climate change starting with the advocacy to use the cleanest form of energy – Fusion.

To start, the Formula Green Corporation owns the technology to extract the raw material from the deep ocean. Formula Green will follow a strategic roadmap to have ownership in the entire supply chain from development and extraction to end-user application through investments in fusion energy and hydrogen economy companies.

The countdown has begun to address the depletion of oil reserves in the next 50 years and to prepare humanity for interplanetary travel in the 21<sup>st</sup> century and beyond.

## What is Fusion Energy ?

Fusion energy powers the sun, and scientists are in a race to replicate this process to sustainably power our planet. The Formula Green Corporation and the FGC Foundation are focused on the development and use of fusion energy to meet the demands for global energy and space exploration and travel.

Formula Green has concessions of the world's largest deposit of the raw material of fusion energy called 'Deuterium' and stakes in the industry verticals including the hydrogen economy. Considered the cleanest source of renewable energy, this raw material will increase in demand and usage with the advent of modular fusion reactors to provide energy for the world as well as space exploration and travel.

Fusion reactors will replace coal, gas, and oil-fired plants to become the power plants of the future. Leading scientists from around the world are as short as two years away from making fusion energy commercially viable, addressing the world's unsustainable addiction to fossil fuels.

### Hydrogen Economy – The Stepping Stone

Hydrogen has been identified as a central pillar of the energy transformation required to limit global warming to two degrees, in compliance with the 2015 Paris Agreement signed by 195 countries. At the 2017 World Economic Forum, an industry-led coalition called The Hydrogen Council was formed to develop the hydrogen economy. Composed of 39 companies that invest along the hydrogen value chain including Toyota, Honda, BMW Group, General Motors, Airbus, Total, and Shell, the Council aims for hydrogen to account for 18% of the world's final energy demand by 2050 and reduce annual CO<sub>2</sub> emissions by roughly 6 Gt compared to today's technologies.

## Hydrogen Uses

Hydrogen gas, a clean, zero-emission fuel is already used in transportation and industrial power generation. Japan leads the way by developing a strategic roadmap for hydrogen and fuel cells. By 2030, 1 in 12 cars sold in California, Germany, Japan, and South Korea could be powered by hydrogen. As fuel cell electric vehicles are best suited for applications with long-range requirements and heavier payloads, the use of hydrogen fuel to power such long-haul vehicles as trucks, buses, and trains will contribute greatly to the decarbonization of the transportation sector.

Hydrogen can also be used to power buildings, industry, and even entire cities, to replace fossil fuels as feedstock for the chemical industry, as well as play a growing role in the storage of such other clean, renewable energy sources as solar and wind.

## Space Travel and Exploration

Liquid hydrogen (Li-Hy) is a form of rocket fuel used in combination with liquid oxygen as rocket propellant. It delivers a *specific impulse*, the metric for rocket fuel efficiency, about 30%-40% higher than most commonly used rocket fuels. Adding to its advantages, Li-Hy is clean, non-toxic, and generally non-corrosive.

Li-Hy is the signature fuel of the American space program that is used in the Delta IV and Atlas V rockets of the U.S. Military. It is also used by other countries to launch satellites into space.

## **Consolidating Other Resources of Value to Humanity**

The MHLK-IRM crypto has created tandem arrangements with other resource based cryptocurrencies.

Asset-backed cryptocurrencies tied-up or is backed with resources such as water, forest cover, carbon footprints, marine reserves, food supply, historical assets such as art and artifacts, human capital and even Artificial Intelligence (A.I.) applications are now working together to achieve world peace.

As countries launch their very own digital assets programs which back their respective countries, they continually seek partnerships with concessions and resource owners; tandem arrangements between our digital currency MHLK-IRM and country-owned cryptocurrencies will be the future.

The success of this program and this decentralized asset-backed cryptocurrency issuance relies on the trust that the humanity as a whole puts on the MHLK-IRM crypto / coin. Just like paper currency which states “In God We Trust”, our digital currency must be clean from any vested interests and managed by the people for the people.

We are pleased to announce our partnership with the Official Maharlika Association (OMA) and the 8 key groups which comprise of the organization:

1. The Maharlika Trust – Chairmanship
2. Maharlika Arts, Music & Culture
3. Maharlika Armed Forces
4. Maharlika Indigenous Tribes
5. Maharlika Religious Orders
6. Maharlika Overseas Workers
7. Sultanate of Sulu
8. Talleano Estate (direct heir)

## **Where is the key facility of the Maharlika ?**

A 4000-hectare property located in Southeast Asia has been allocated for this project in order to create a “city of the future” called the Maharlika City.

Following the design of the late American futurist and United Nations awardee Jacques Fresco, the Maharlika City will be built based on a “Resource Based Economy” and fusion energy technology.

Aside from providing homes, this city will provide livelihood dedicated towards the research, development, and implementation of a shared resources economy. The city will focus on further developing basic human needs (water, energy, and food security) to working on technological advancements in fusion energy, space travel and exploration, and health and medicine.

The Maharlika City will be the model city which will include a SPACEPORT facility, showing the world how to ensure the survival of the human race for generations to come.

The digital currency of trade will be the Maharlika Coin (MHLK-IRM).

# The Maharlika Crypto (Ethereum Ticker: “MHLK-IRM”)

## Classification

The Maharlika Crypto utilizes both the ERC-20 and ERC-721 platforms on the Ethereum network. A rebirth of the “Bagong Lipunan” currency launched in the 70’s, our asset-backed cryptocurrency, neither classified as a security or utility token, is the mode of trade to drive the Foundation’s initiatives.

Symbol: MHLK-IRM

Type: ERC-20 (Ethereum)

Value: €1.00 per coin

## Assets

The Maharlika Crypto is backed by the following:

1. Raw material of fusion and its futures: The Formula Green Corporation has committed its energy resources, modular reactor technologies and proprietary nanotechnology for extraction to back the MHLK-IRM crypto.
2. Global Assets and Resources: the Maharlika Trust has pledged its global assets earmarked for Humanity to this initiative and placed these resources on the blockchain.

## How does it work ?

Log on to [www.maharlikacrypto.com](http://www.maharlikacrypto.com) to register for your wallet.

1. Contact one of our appointed asset managers in Singapore, Hongkong, Monte Carlo or Dubai to obtain MHLK-IRM Crypto / Coins which will be listed on the site;
2. Transact on our ecosystem (exchange and online stores etc.) as we continue to build partnerships to utilize the coin ([www.buybargainbay.com](http://www.buybargainbay.com));
3. Utilize (buy, sell, trade, transact) the coin based on the value indicators mentioned in the next section of this white paper as permitted by law in selected geographies);
4. Enjoy various loyalty programs when you use our ecosystem which will bring basic goods & services to our members and crypto holders;
5. Follow the MHLK-IRM Crypto / Coin through any of our social media pages.

Note : WE ARE NOT AFFILIATED TO THE MHLK FOUNDATION

## Value Drivers

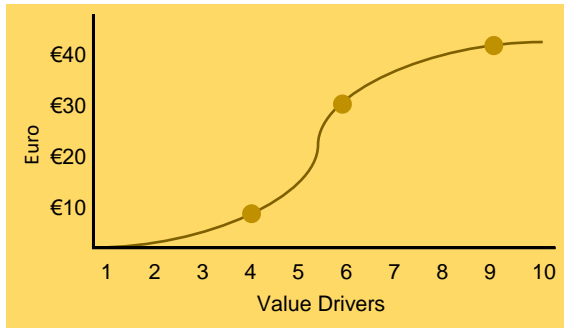

The value of the Maharlika Crypto MHLK-IRM will be affected by major developments which impact humanity as a whole:

- Global warming and the drastic measures required to eradicate fossil fuels and greenhouse gases along with the announcements from governments and the United Nations increasing the need for hydrogen and fusion energy;
- Successful protection of environmental concerns in water, air, land, from pollution and waste, to protection our major resources like coral reefs and forests;
- Signing of peace treaties among nations;
- Breakthroughs in nanotechnology, machine learning, and A.I. technology which successfully integrate with humanity;
- Expansion and use of ecosystems;
- The purchase of Formula Green’s resources using MHLK crypto / coin;
- Acceptance of MHLK by humanity especially for emerging markets starting with the Maharlika Movement’s 10 million strong following;
- The gifting of fractional ownership of the global assets and resources pledged by the Maharlika Trust;
- Space exploration and travel especially successful missions to other planets and establishment of human colonies in space;
- The happiness index of humanity.

## MHLK-IRM CRYPTO VALUE DRIVERS

The value of MHLK-IRM crypto / coins and its overall success is dependent on the implementation of best practices, global economic indicators, and the benefits it achieves for all of humanity.

### Value of the Crypto / Coins.

*“To build the Next Currency, the value of the past and present has to be absorbed and engulfed by the value of the future”*

The value of the raw material of fusion is €40.00 per ounce today which is the same price of gold in the early 1970's. We see this as a pattern repeating itself. Due to the advent of space exploration and travel, the price of the raw material of fusion will increase exponentially (note that this is the raw material to create fusion, and not fusion energy itself).

The raw material of fusion will surpass the value of all minerals available on earth in 2020.

Hydrogen is currently priced at €13.99 per kg today and liquid hydrogen at €3.08 per kg today.

## Technology

With high projected growth, the team is constantly monitoring the progress and development of the digital assets & currencies on the blockchain.

As a global initiative, it is important that accessibility, speed, and security constantly be addressed. The following is a list of priorities our Digital Assets Team is set to achieve:

- Increased security protocols around the authentication and validation of our digital assets program with the Formula Green Corporation (FGC) and Formula Green Foundation (FGF) to eliminate fraud in all forms;
- Increase output to accommodate growth in transactions;
- Establish a formal partnership with selected financial institutions and a platform for the release of coins to beneficiaries and partners;
- Develop a Neural Network that provides security for the ecosystem and all of its participants;
- Launch of INTERNAL EXCHANGE;
- Develop or participate in a global ecosystem that will create decentralized autonomous organizations (D.A.O.);
- Upgrade to the most advanced security system based on scoring processes by networks utilizing Artificial Intelligence (AI);
- Create an API interface for the development of any external solutions by third-party developers;
- Develop a tunneling encryption algorithm for additional system security and security of assets as needed depending on Ethereum developments – our chosen platform;
- Monitor advances in blockchain technology and apply them where beneficial especially for monetization demands.

## Milestones on the Resource Based Economy Initiative.

Registration of Formula Green Foundation .....	Done
Finalization of Recipients Directory .....	Done
Issuance of MHLK-IRM (ERC-20 / ERC 721.....)	Done
Registration of initial 10 million member subscribers ...	Done
Custodian Services .....	Done
Development of Ecosystem .....	Done

#### Notes :

- The Formula Green Corporation (FGC) is in the business of fusion energy. Its digital assets program is handled by the Formula Green Foundation (FGF).
- The FGC and FGF are domiciled in Europe with its digital assets program based in Switzerland with custodian relationships in Monaco and Dubai.
- The FGC and FGF strictly observe all rules established by governments on the use of blockchain and cryptocurrencies.
- The Maharlika Crypto or Coin (MHLK-IRM) issued by the FGF is NOT a speculative cryptocurrency and is positioned as an asset-backed digital currency against energy resources, minerals, and property assets.
- All rights reserved by the Formula Green Corporation (FGC) and the Formula Green Foundation (FGF).
- Please beware of fake claims and websites associating themselves with FGC, FGF, the Official Maharlika Association (OMA) and the Maharlika Trust.
- All correspondence can be addressed to: [inquiries@formulagreencorporation.com](mailto:inquiries@formulagreencorporation.com)
