

Experimental Design Process

Title _____

Hypothesis: _____

Independent Variable: _____

Dependent Variable: _____

Control Variables: _____

Procedure: (Continue on the back of this sheet if additional space is needed.)

Data Collected: (Continue on the back of this sheet if additional space is needed.)

Construct a data table and a graph of your results.

Analysis of Data: (Continue on the back of this sheet if additional space is needed.)

Conclusion based on evidence: (Continue on the back of this sheet if additional space is needed.)
