

VECTORIZE TECHNOLOGY

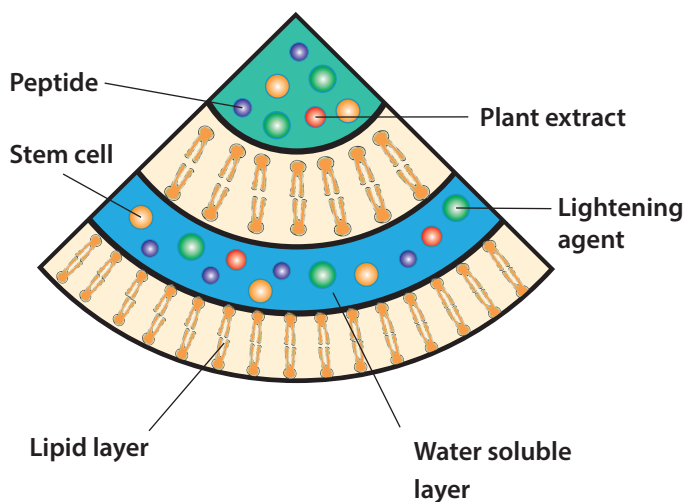

only by Image Skincare

**Truly unique, revolutionary technology,
only available from Image Skincare.**

7 benefits of Image Skincare's unique Vectorize Technology:

1. First complex to date to include multiple active ingredients in one sphere to deliver into skin (multi-layered sphere incorporates different active types of ingredients)
2. First stem cells to date that are assembled into spheres to deliver into skin
3. Improved and prolonged effectiveness of active ingredients
4. Increased effectiveness due to augmentation of active ingredients
5. Unparalleled cosmetic feel due to the prolonged effect of product
6. True time released active ingredients over up to 48 hours for long lasting effect
7. Proprietary blend of vectorized ingredients for maximum effect-no other company has these available

How it works:

- Spheres are formed and encapsulated hydrophilic active ingredients (proprietary blend that contains phospholipids)
- Spheres consists of up to 100 surfactant bi-layers
- Onion-peel like appearance of the sphere
- Non ionic vesicles penetrate the deeper layers of skin (cationic, positive charged vesicles would adhere to skin and not penetrate)
- Successively release and open of the sphere
- Layers “peel off” as the vesicle travels into the skin, releasing active ingredients for a prolonged time

Advantages:

- Better skin penetration
- Enhanced ingredient efficacy
- Enhanced cosmetic application and feel

What is currently available?

Anti-Aging Vectorize Technology:

- The MAX stem cell serum
- The MAX stem cell crème
- The MAX stem cell eye crème
- Ageless total anti-aging serum

Whitening Vectorize Technology:

- Iluma intense lightening serum
- Iluma intense brightening crème
- Iluma intense lightening body lotion
