MISC: Wondering what to do with those carved pumpkins after Halloween? Don't just pitch them. Turn them into bird feeders. Put a few inches of birdseed along the bottom. Enlarge the openings to make it easier for the birds to eat. Then enjoy the many different birds (and probably a few squirrels) that will feast at your jack-o'-lantern turned bird-o'-feeder. – (The Missouri Conservationist)

REMINDER: Please return the Household Questionnaires that you received during parent/teacher conferences.
