STORAGE & MATERIAL HANDLING

FIND THE TRUCK YOU NEED!

Truck Type

Features and Benefits

Cube Trucks

Use these durable and versatile trucks for a variety of bulky, load-carrying tasks including waste collection, material transport and laundry handling. Available in four capacities. Find these on page 474.

Tilt Trucks

These trucks maximize maneuverability and make it easy to dump contents. Ideal for handling bulky materials and loads that are medium to heavyweight. Insert wheels and the overall profile helps protect surroundings. Consider your need for the lid option. Find these on page 475.

Platform Trucks

Accommodate loads of varying shapes and sizes aboard a high-capacity platform truck. Depending on what you're moving, you'll want to look at support—more when you're loading multiple, hard-to-balance items—less when loads are more well-balanced. Some platform trucks offer work-height surfaces. Find these on pages 466 – 467.

Hand Trucks

Carry a surprisingly heavy load with ease and agility with a two-wheeled hand truck. Buy a model that's dedicated to this role, or combine functionality with a convertible truck that switches from a two-wheeled configuration to a four-wheeled platform. Find these on pages 465 – 466.

Convertible Trucks

Change configurations to use one truck for multiple applications. Some versions combine removable shelving with a more open platform truck option. Others provide support alternatives that adjust to the loads you're transporting. Find these on page 468.

A HideAway® Aluminum Hand Truck Lightweight aluminum frame with a collapsible handle and fold-up steel toeplate fits easily in car or closet. Mobile on 6" diameter rubber tires on steel hub.

Heavy-Duty Industrial Wire Shelving Find your ideal storage solution for industrial, foodservice, medical industry and all other storage needs. Reinforced extra-strong welded wire construction provides unmatched strength and stability. Open design that allows for air circulation. Shelves adjust in 1" increments. Can be set up as a four-tier single rack or as two two-tier racks to meet specific needs.

A BA Plus Wire Shelving Kit Universal storage solution ideal for industrial, foodservice and medical and all other storage needs. Long-lasting industrial-grade finish resists corrosion in even the harshest environment, wet or dry. Heavy-duty shelves withstand constant re-stocking. Can be used in freezer applications and with an open design that allows for air circulation. Snap-together design assembles in minutes without tools. Can be set up as a four-tier single rack or as two two-tier racks to meet specific needs. Shelves adjust in 1" increments. Manufacturer's limited five-year warranty. Additional eight-year corrosion warranty.

A Vented Round Brute® Lid Fits Rubbermaid® Commercial BRUTE® trash cans (sold separately). All-plastic, professional-grade trash can construction will not rust, chip, or peel, and resists dents. Manufacturer's limited one-year warranty.

ID No.	Color	For Model	Unit	Price
1	Black	Rubbermaid® Commercial 264360, 264300	EA	

B Vented Round Brute® Container Sets the standard for reliable garbage collection in high traffic areas. Built tough and versatile, these garbage cans feature revolutionary venting channels that let air flow into the receptacle making liners up to 50% easier to remove. Integrated cinches allow bags to be attached to handles without knots for faster liner changes while contoured base handles and rounded top handles make it easier for staff to lift and transport these receptacles in any facility. Manufacturer's limited one-year warranty.

D Configure™ Indoor Recycling Waste Receptacle Provides a customizable recycling solution with sleek, smooth surfaces and contoured edges. Modern appearance fits seamlessly into any indoor or outdoor commercial environment. Magnetic connection keeps the containers arranged in the order that best fits the space, in a row or an island. Easy-access front door and handle allow for ergonomic emptying of waste. Internal door hinge prevents unsightly wall damage and helps maintain a neat, clean appearance. Rigid plastic liner with handle has built-in venting channels that create airflow. Secure liner bags with integrated liner cinches, allowing for knot-free liner changes. Shipped fully assembled. Manufacturer's limited one-year warranty.

BAGS & CAN LINERS

**LINEAR
LOW-DENSITY**

**LOW-DENSITY
REPRO**

HIGH-DENSITY

DRAWSTRING

LINERS FOR EVERY NEED!

Choose From Two Types of Plastics

Linear Low Density (LLD) — Tougher transport conditions require the superior tear resistance of LLD liners. This plastic is designed to perform in environments with higher risk of tears or punctures, either from the can liner contents, surrounding environment or through transportation to disposal units, as LLD does not tear easily, even after puncture. **Find these on pages 514-517.**

High Density (HD) — When greater puncture resistance and load capacity are the priority, select HD liners. Even with thinner construction, HD liner material delivers puncture and load benefits—performing well with waste that is heavy, such as unbroken glass, or other materials that do not have sharp edges. **Find these on pages 521-523.**

Strength Grade and Gauge

Strength grades are based on static load, also known as lifting strength. LLD and HD plastic materials achieve the same static load with different gauges; order your bags accordingly. Use this chart for easy reference to determine approximate gauge equivalents.

Strength Grade	LLD Mil Gauge	HD Micron Gauge
Light	.35 – .44	5 – 9
Medium	.45 – .57	10 – 12
Heavy	.58 – .69	13 – 14
Extra-Heavy	.70 – .89	15 – 17
XX-Heavy	.90 – 1.14	—
Super	1.15 – 1.39	—
Super-Heavy	1.40 – up	18 – 24

Light—Use for crumpled paper, cups and light waste.

Medium—Appropriate for packaging waste, wet paper and similar mixed trash.

Heavy—Choose for light wood, metal scraps and wet cardboard.

Extra-Heavy—Select for use when trash is consistently heavy, wet or sharp.

Super/Extra-Heavy—Use on the heaviest cleanup jobs, in warehouses, cafeterias, or facility grounds.

Capacity

Know the capacity of your receptacles and select the bag or liner to suit. Bags and liners are available in a multitude of sizes; gallon capacity is listed with each item throughout this section.

Bottom Seals

Star-Seals — The most common type. Conform easily to any shape waste container, distribute weight evenly inside the bag and have the maximum carrying capacity.

Flat-Seals — Hold more volume than like-sized star seals. Appropriate for somewhat lighter weight loads.

Gusset-Seals — Another seal found in flat-style bags. Offer a good fit in certain receptacles and appropriate for somewhat lighter loads.

Use the sizing guide below to locate your waste receptacle. The right liner size is listed next to it.

The right size is important!

Ideally, you should have about three to four inches of liner overhang on your receptacle. Anything more or less is wasteful of both time and money.

GET THE RIGHT FIT

←

Using the correct can liner size is key to being cost-effective. Take a look at how bags fit each bin or can at your facility. If they hang over the edge of the receptacle by more than four inches, you are using too much bag for the job!

JAGUAR PLASTICS
Commercial Can Liners

A Industrial Strength Low-Density Commercial Can Liners Linear low-density polyethylene provides industrial-strength puncture and tear resistance. Star-seal bottom helps prevent leaks. Individually folded for quick and easy dispensing.

B Litelift™ Low-Density Can Liners Litelift™ is the first ergonomically designed can liner which allows you to carry your trash bag safely and securely with reduced risk of back and other muscular/skeletal injury. Using the knot on the top of the bag and the handle cut into the extra seal on the bottom you have the ability to lift and carry using both hands. Excellent puncture and tear resistance.

A Tall Kitchen Drawstring Trash Bags Guaranteed strong with reinforcing bands that help add strength while using less plastic when compared to a leading branded bag. Unique diamond pattern stretches to prevent rips, reinforcing bands to add strength and a thicker plastic for leak protection. 3-layer drawstring closure makes garbage bags easy to lift, carry and toss away. Perfect for kitchens, break rooms, and daycare centers.

ID No.	Capacity	W x H	Gauge	Color	Qty. Unit	Price
1 CLO-78526CT *	13 gal	24" x 27 $\frac{1}{2}$ "	0.95 mil	White	400 CT	

* California Air Resources Board (CARB) Compliant.

B OdorShield® Tall Kitchen Drawstring Bags Made with OdorShield® technology and Febreze® freshness for guaranteed 5-day odor control, based on lab tests comparing unscented bags. The unique diamond pattern of the drawstring bags stretches around objects to prevent rips; reinforcing bands help add strength while reducing plastic waste, when compared to a leading branded bag. Liners are reinforced at the top, middle and bottom and are made with thicker plastic for leak protection. 3 ply drawstring grips the can and the bag stays in place until you are ready to take it out.

C Advanced White Three-Ply Dinner Napkins The embossed, facial quality of these dinner napkins bring class and practicality to casual dining. This napkin has advantages over cloth—absorbency, never frayed, uniform presentation, cleanliness and especially cost savings. The tasteful rose embossing combined with three-ply thickness and high brightness provides quality while protecting unused napkins. Napkins are always fresh and sanitary. Compostable within 30 - 90 days depending on the conditions of the compost pile in municipal or industrial aerobic composting facilities.

B Eco Food Trays Eco food trays are made from all kraft paperboard, which contains at least 18% recycled wood fiber content. Like all of our other food trays, the new Eco trays are highly recyclable and compostable when disposed in proper commercial facilities. The trays have disposal logos printed on the bottom to effectively communicate this with your customer. In addition, Eco Trays are made using a totally chlorine free manufacturing process, which consumes less raw material and water, leaving more of those resources untouched. Clearly, Eco Trays are the natural choice for your foodservice needs and our environment.
