

## **Patricia (Pat) DeWolf Miller – Class of 1962**

“I have many great memories of S.E., especially of friends, and they are still friends today. Long lasting friends are the best!”

### **High School Memories**

I lived at 7120 Indiana while attending Southeast. My sister Judie DeWolf Wells also graduated from Southeast.

I participated in Pep Club and Tri-Hi-Y.

My most memorable classes and teachers were:

- Dr. Langford - Family Relations
- Mrs. Johnson - English
- Mrs. Mosman - Shorthand

My most vivid Southeast memory was pledging to sorority Gamma Sigma, sorority dances and my girlfriends, Carol Jo Funk, Carol Peterson, Glenda Bosserman and Terri Trout (Terri (Trout) Streeter and I are “best friends” today.)

Away from school, I spent time with friends, playing Elvis records, doing homework. I also had several boyfriends—whose names I won't mention!!

It was safe to walk (a long way) to school. John F. Kennedy was President. The Peace Corp was created in 1961. The first U.S. astronaut, Lieut. Col. John Glenn, orbited the earth 3 times. The Supreme Court declared public school prayers to be unconstitutional. (1962).

### **After Graduation**

After high school I started work immediately at A.T.&T. and stayed there for almost 28 years. I started as a mail clerk and retired in 1989 as a manager in the Engineering Dept.

I just hope my grandchildren (4) have the same kind of memories in spite of the chaos our country is in right now. And, I pray that God blesses our nation and brings us back to peace.
