

# The Urban Range Awning/Casement Window

**CAPRAL**  
ALUMINIUM

  
**urban**

Awning/Casement windows have the option to look either retro or modern due to their ability to have a splayed or a square looking sash. Awning windows are high performing, from both a thermal and acoustic perspective, due to a true full perimeter seal around the sash. They can be single or double glazed and available with keyed lock options.

## The Urban Awning/Casement Window

The Urban Awning/Casement Window has been designed to provide a clean and streamlined appearance with its modern bevelled sash profiles and glazing beads. The Urban features a continuous hook hinging system and the options of either a chain winder or sash catches for ease of operation. Full perimeter sash seals are designed to improve weather tightness and along with the option of double glazing, can provide increased thermal comfort and performance.

Being part of the Capral Urban Residential Range, it can be integrated with a complementary selection of sliding, casement and double hung windows to provide a total window solution.

### Features and Benefits:

- Neat, clean appearance
- Single and double glazing options
- Lockable hardware options
- Positive sealing for improved weather performance
- Electric winders available
- Integrated insect and security screening options

### Finishes Available:
